

# Fit For Purpose Solutions

Man & Machine's waterproof keyboards are built for durability in medical, industrial, and public safety settings. They withstand harsh disinfectants and rugged use, offering reliable performance with customizable features.

## Our solutions

### Medical Grade™ Keyboards & Mice

Medical Grade™ IT devices designed to compliment infection prevention protocols.

### TAA Compliant Sealed Keyboards & Mice

Rugged, waterproof devices that are made in the USA and are TAA-Compliant.

### Washable Keyboards & Mice

Durable, waterproof devices that can be easily washed and disinfected in any setting.

### Oil-Resistant Keyboards & Mice

Specially designed to provide durability in industrial environments.

### Privacy Monitors

Monitors with built-in privacy filters that protect sensitive information from unauthorized viewing.

### Asset Identification Solutions

Premium vinyl wrapped solutions custom for carts, monitors, etc. Easily know where a device should be in a facility.
