

# World of Inspiration™

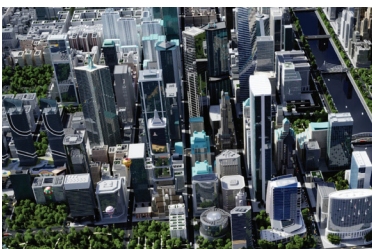

# Enter the World of Inspiration

## Want to see ways to improve your business with technology?

The TD SYNEX World of Inspiration (WOI) is a web-based visual platform that shows you end-to-end solutions in specific technology categories and vertical applications. Our virtual Smart City hosts products, software, services, and solutions throughout real-life work and lifestyle environments.

- Narrations and tutorials accompany you throughout the experience
- Gain easy access to WOI platform by any internet-connected device
- Demo solutions in a variety of ways (see below)
- Consistently updated content provides unique experiences with every visit
- No matter where you start in WOI, all content is accessible in the city
- Live Chat Support – Room experts can engage with you in each room

## This platform features three levels of content.

**City View** provides an overview map of an entire city. You may freely explore the city by clicking hotspots across the map that correlate to buildings that represent key verticals.

**Building View** represents an overview of the entire building or vertical.

**Room or Workspace View** provides a 3D representation of a room or area associated with a vertical such as a hospital lobby, hotel room, or data center.
