Meet the Aruba Instant On Switches

HIGH PERFORMANCE, STACKABLE SWITCHES

Fast, reliable, and secure network connections play a critical role in helping small businesses maintain a competitive advantage in an increasingly virtual world. From retail stores, to cafes, to bed-and-breakfasts, small businesses need a strong network to provide amazing online experiences while keeping employees productive. At the same time, with constrained resources and a growing number of interconnected devices, getting the most valuable networking solution for the money has become a basic need for budget-strapped small businesses.

Easy to set up and manage, Aruba Instant On switches are perfect for work-from-home and for small and growing businesses. Providing a foundation for reliable connectivity, switches maximize both performance and peace of mind across your network and devices. They also eliminate the need for additional power outlets for essential wired devices like surveillance cameras, access points and desktops. Aruba Instant On offers a comprehensive range of smart-managed switches to fit various business needs and sizes. From 8 to 48 ports, with Gigabit, 10-Gig copper and/or fiber connectivity, flexible management options, and Class 4 and Class 6 PoE support, Aruba Instant On offers everything you need for reliable wired connectivity.

BENEFITS

FLEXIBLE MANAGEMENT MODES

Management through local web GUI or Instant On cloud-based management (via mobile app and web portal)

SUPPORT FOR IOT DEVICES

Class 4 and Class 6 PoE support to connect more devices

PEACE OF MIND

Built-in security features for a worry-free networking experience

SCALES WITH YOUR BUSINESS

Ready to deploy in 8-,24- and 48-port PoE and non-PoE models
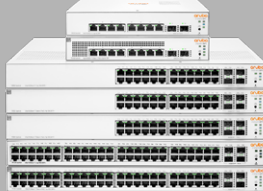

WE'VE GOT YOU COVERED

Support in all the right places: limited lifetime warranty, phone and chat support, and an active online community

SWITCH MANAGEMENT

Instant On switches can be deployed using two management modes — Instant On cloud-management (access via mobile app and/or web portal) and the local web GUI, all at no extra cost.

MEET THE ARUBA INSTANT ON SWITCHING PORTFOLIO

	Aruba Instant On 1830	Aruba Instant On 1930	Aruba Instant On 1960
Port Size	8-/24-/48- port PoE and non-PoE models	8-/24-/48- port PoE and non-PoE models	24-/48- port PoE and non-PoE models, 12-port aggregator
PoE Support	Class 4 PoE support*, partial PoE support (first half of ports support PoE) on PoE models	Class 4 PoE support*	Class 4 and Class 6 PoE support*
Stacking	No	No	Yes, true stacking* (local, cloud-managed, hybrid)
Uplinks	SFP uplinks	SFP+ uplinks	10GBase-T and SFP+ uplinks
Management	Local web GUI or cloud-based management (access via mobile app or web portal)	Local web GUI or cloud-based management (access via mobile app or web portal)	Local web GUI or cloud-based management (access via mobile app or web portal)
Ideal deployment	Home offices, retail stores and small professional offices	Small café, retail stores, medical offices, professional offices	Boutique hotels, high-powered tech-startups, small nursing homes, training facilities
Use-case	Cost-efficient small business environments that require both PoE (power and connectivity to surveillance cameras, access points) and non-PoE support (connectivity to PCs and laptops)	Small businesses looking to connect wired devices within their network like wireless APs, printers, surveillance cameras and PoS systems	Growing small businesses looking for 10G connectivity with different wired devices like surveillance cameras, VoIP phones and wireless access points (APs) and high-end servers and storage

* With PoE models, up to 30W PoE power delivery is available for Class 4 PoE devices like access points, surveillance cameras and VoIP phones, and up to 60W PoE power delivery is available for Class 6 PoE devices like pan-tilt zoom cameras and video-enabled IP-phones.
