aruba
Instant On

Smart, simple, small business Wi-Fi.

Wi-Fi that works brilliantly the moment it's on — ideal for work-from-home and small businesses.

A better way to Wi-Fi

Superb performance

- Aruba Instant On provides a reliable, robust, and secure Wi-Fi network
- It's blazing fast — ready for today's online-everything world
- No more dead spots, dropped connections, or spinning circles
- Smart Mesh has you covered

Easy to use

- Set it up in minutes with a user-friendly app
- Built-in security to protect against threats
- Reliable support 24/7 — phone and chat

Value and flexibility

- Coverage that suits your needs
- One all-inclusive price — no hidden subscription or licensing fees
- Expand your network down the road

What is the solution?

Wi Fi 6 CERTIFIED

Aruba Instant On Access Points

Create a blanketed Wi-Fi experience — with Wi-Fi 6 options and Smart Mesh — that enables devices to have connected Internet coverage wherever they are placed.

Aruba Instant On Mobile App

Set up Wi-Fi in a few clicks — no experience necessary. Monitor and manage your network from your phone.

Aruba Instant On Switches

Need more than three access points in your network? Plugging them into a switch boosts signal and speed. If you have wired devices you need to plug in, like a gaming console or printer, a switch provides plenty of ports.

Recommend the right set up for usage — 3 solutions to choose from

LIGHT USE

Send email, browse the internet and share text-based documents easily and seamlessly.

Recommend: Aruba Instant On AP11, or Aruba Instant On AP11D and Aruba Instant On 1830 8- or 24-port switch

MODERATE USE

Make voice calls, work in your company's online file-sharing system and cloud-based collaboration apps, stream movies.

Recommend: Aruba Instant On AP22 (Wi-Fi 6 compatible), or Aruba Instant On AP12, or Aruba Instant On AP17 (outdoor use only) and Aruba Instant On 1930 24- or 48-port switch

HIGH USE

Meet via video conference, work in your company's critical productivity apps, create multimedia content — and still have bandwidth for learning and gaming.

Recommend: Aruba Instant On AP25 and AP22 (Wi-Fi 6 compatible), or Aruba Instant On AP15, or Aruba Instant On AP17 (outdoor use only) and Aruba Instant On 1960 48-port switch
