Get search results in a snap

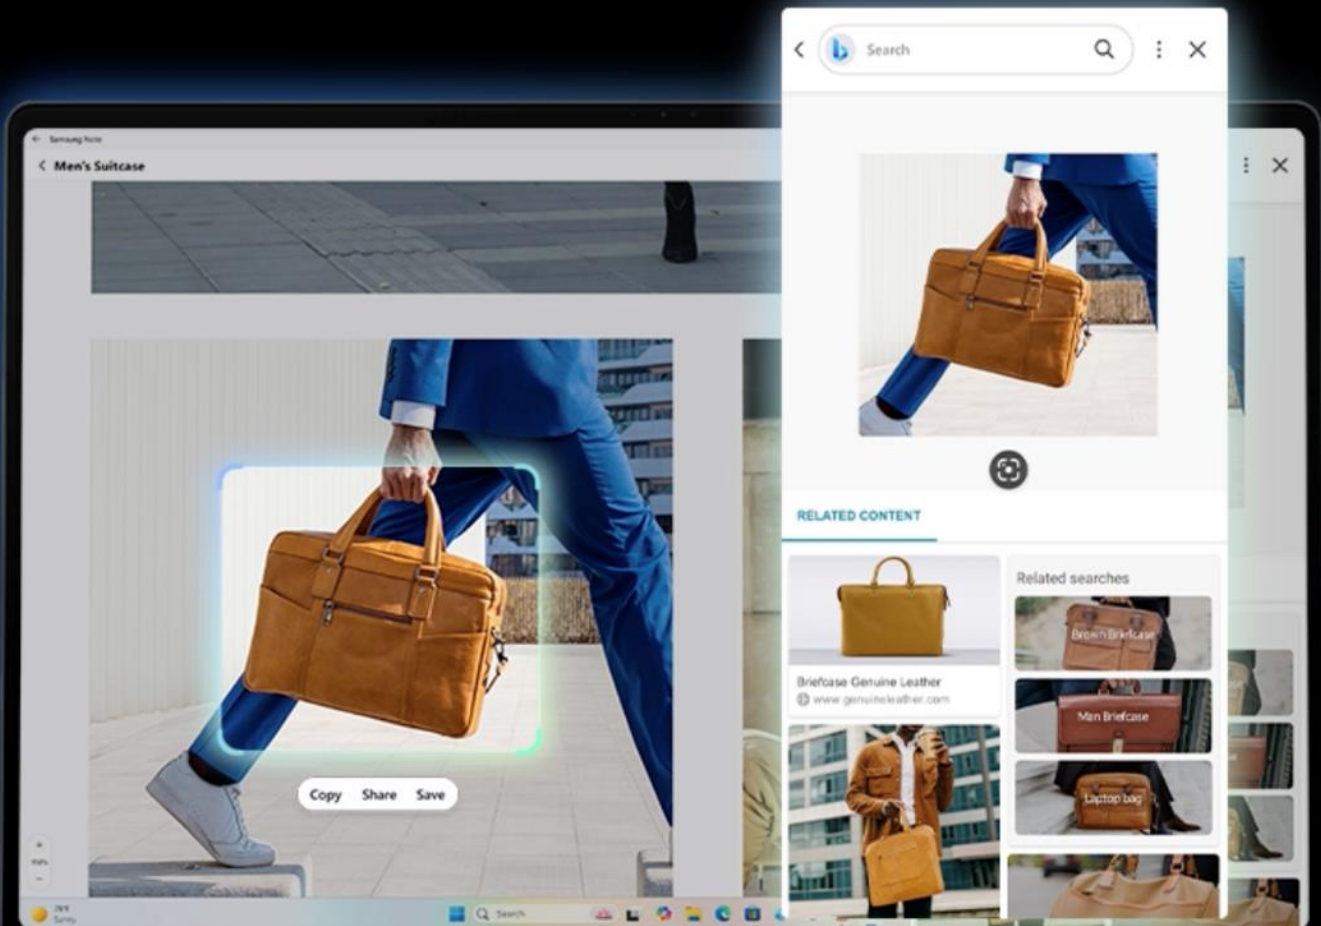

AI Select lets you search intuitively right on your PC screen. No need to type – simply trace an image, text or even a QR code on the screen using cursor or touch and get search results on the fly.

1. Click and drag to select text or an image to search

2. Trace an image, text, or QR code

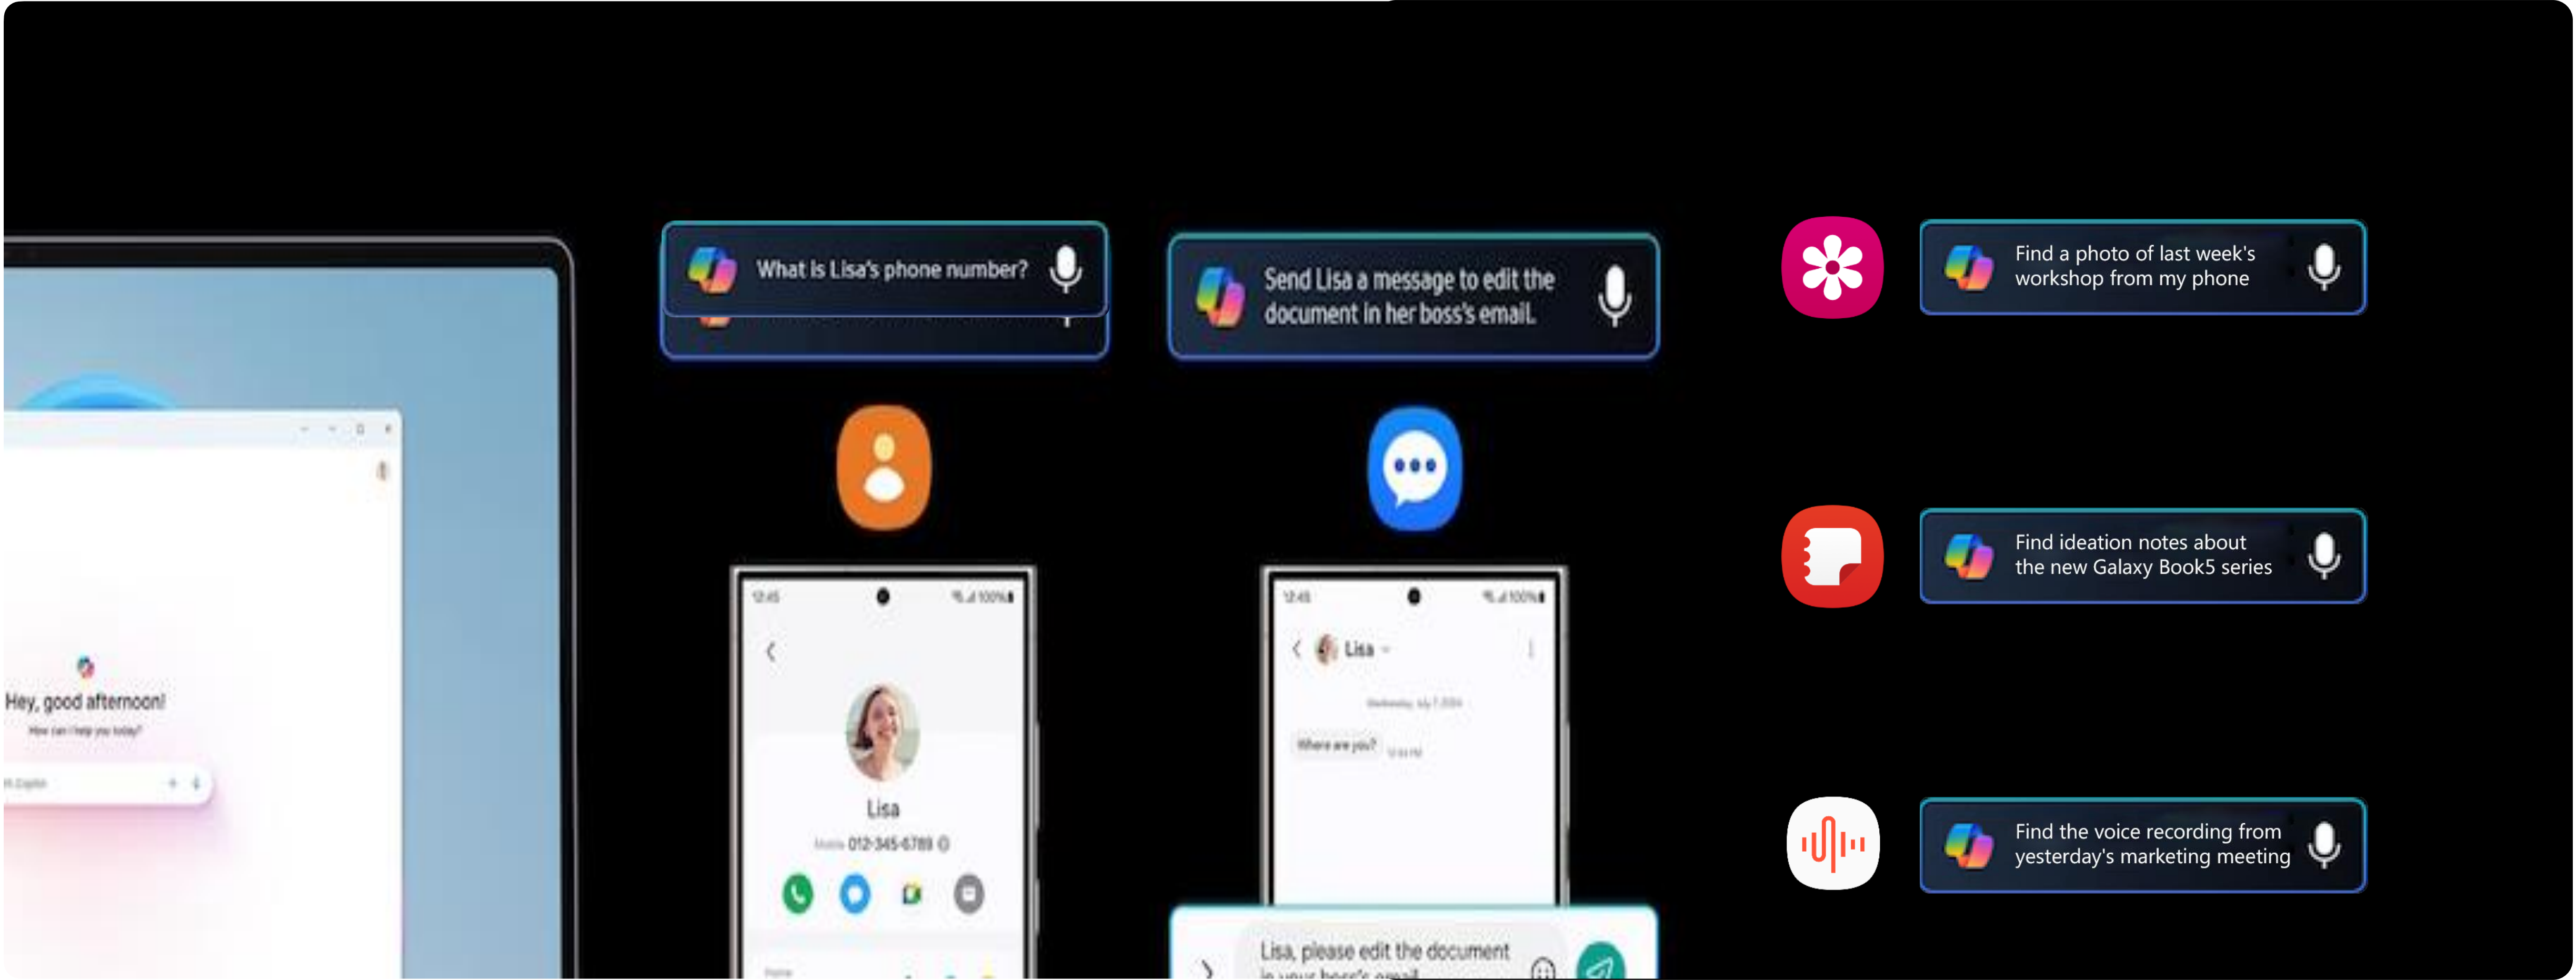

3. Get search results

*Images simulated. Results for illustrative purposes only. Actual UI may be different.
**Results may vary depending on visual matches. Accuracy of results is not guaranteed.
***Requires internet connection and Samsung Account login.
****Service availability may vary by country, language or device model. Availability of supported languages may vary. Certain languages may require language pack download.
*****AI Select download and installation may be required when launching the app for the first time.

Enhance work productivity with your Samsung Galaxy phone

Now you can access some of your phone's powerful AI capabilities from the convenience of your PC's larger screen.*

*Image simulated for illustrative purposes. Actual UI/UX may differ.
**Galaxy S24 Ultra and Galaxy Book4 Pro 360 sold separately.
***Copilot in Windows feature availability and rollout timing may vary by country and device. Requires Microsoft account to log in. The Copilot Phone Plugin is temporarily disabled due to product updates by Microsoft. The updated Phone Plugin is expected to be available in early 2025 depending on Microsoft's release schedule. Please visit the Phone Plugin Support Page for more details. samsung.co/GalaxyBook4-support
****MMS messaging in Copilot in Windows will be supported within the first half of 2024

Experience seamless Phone to PC connectivity in the workplace

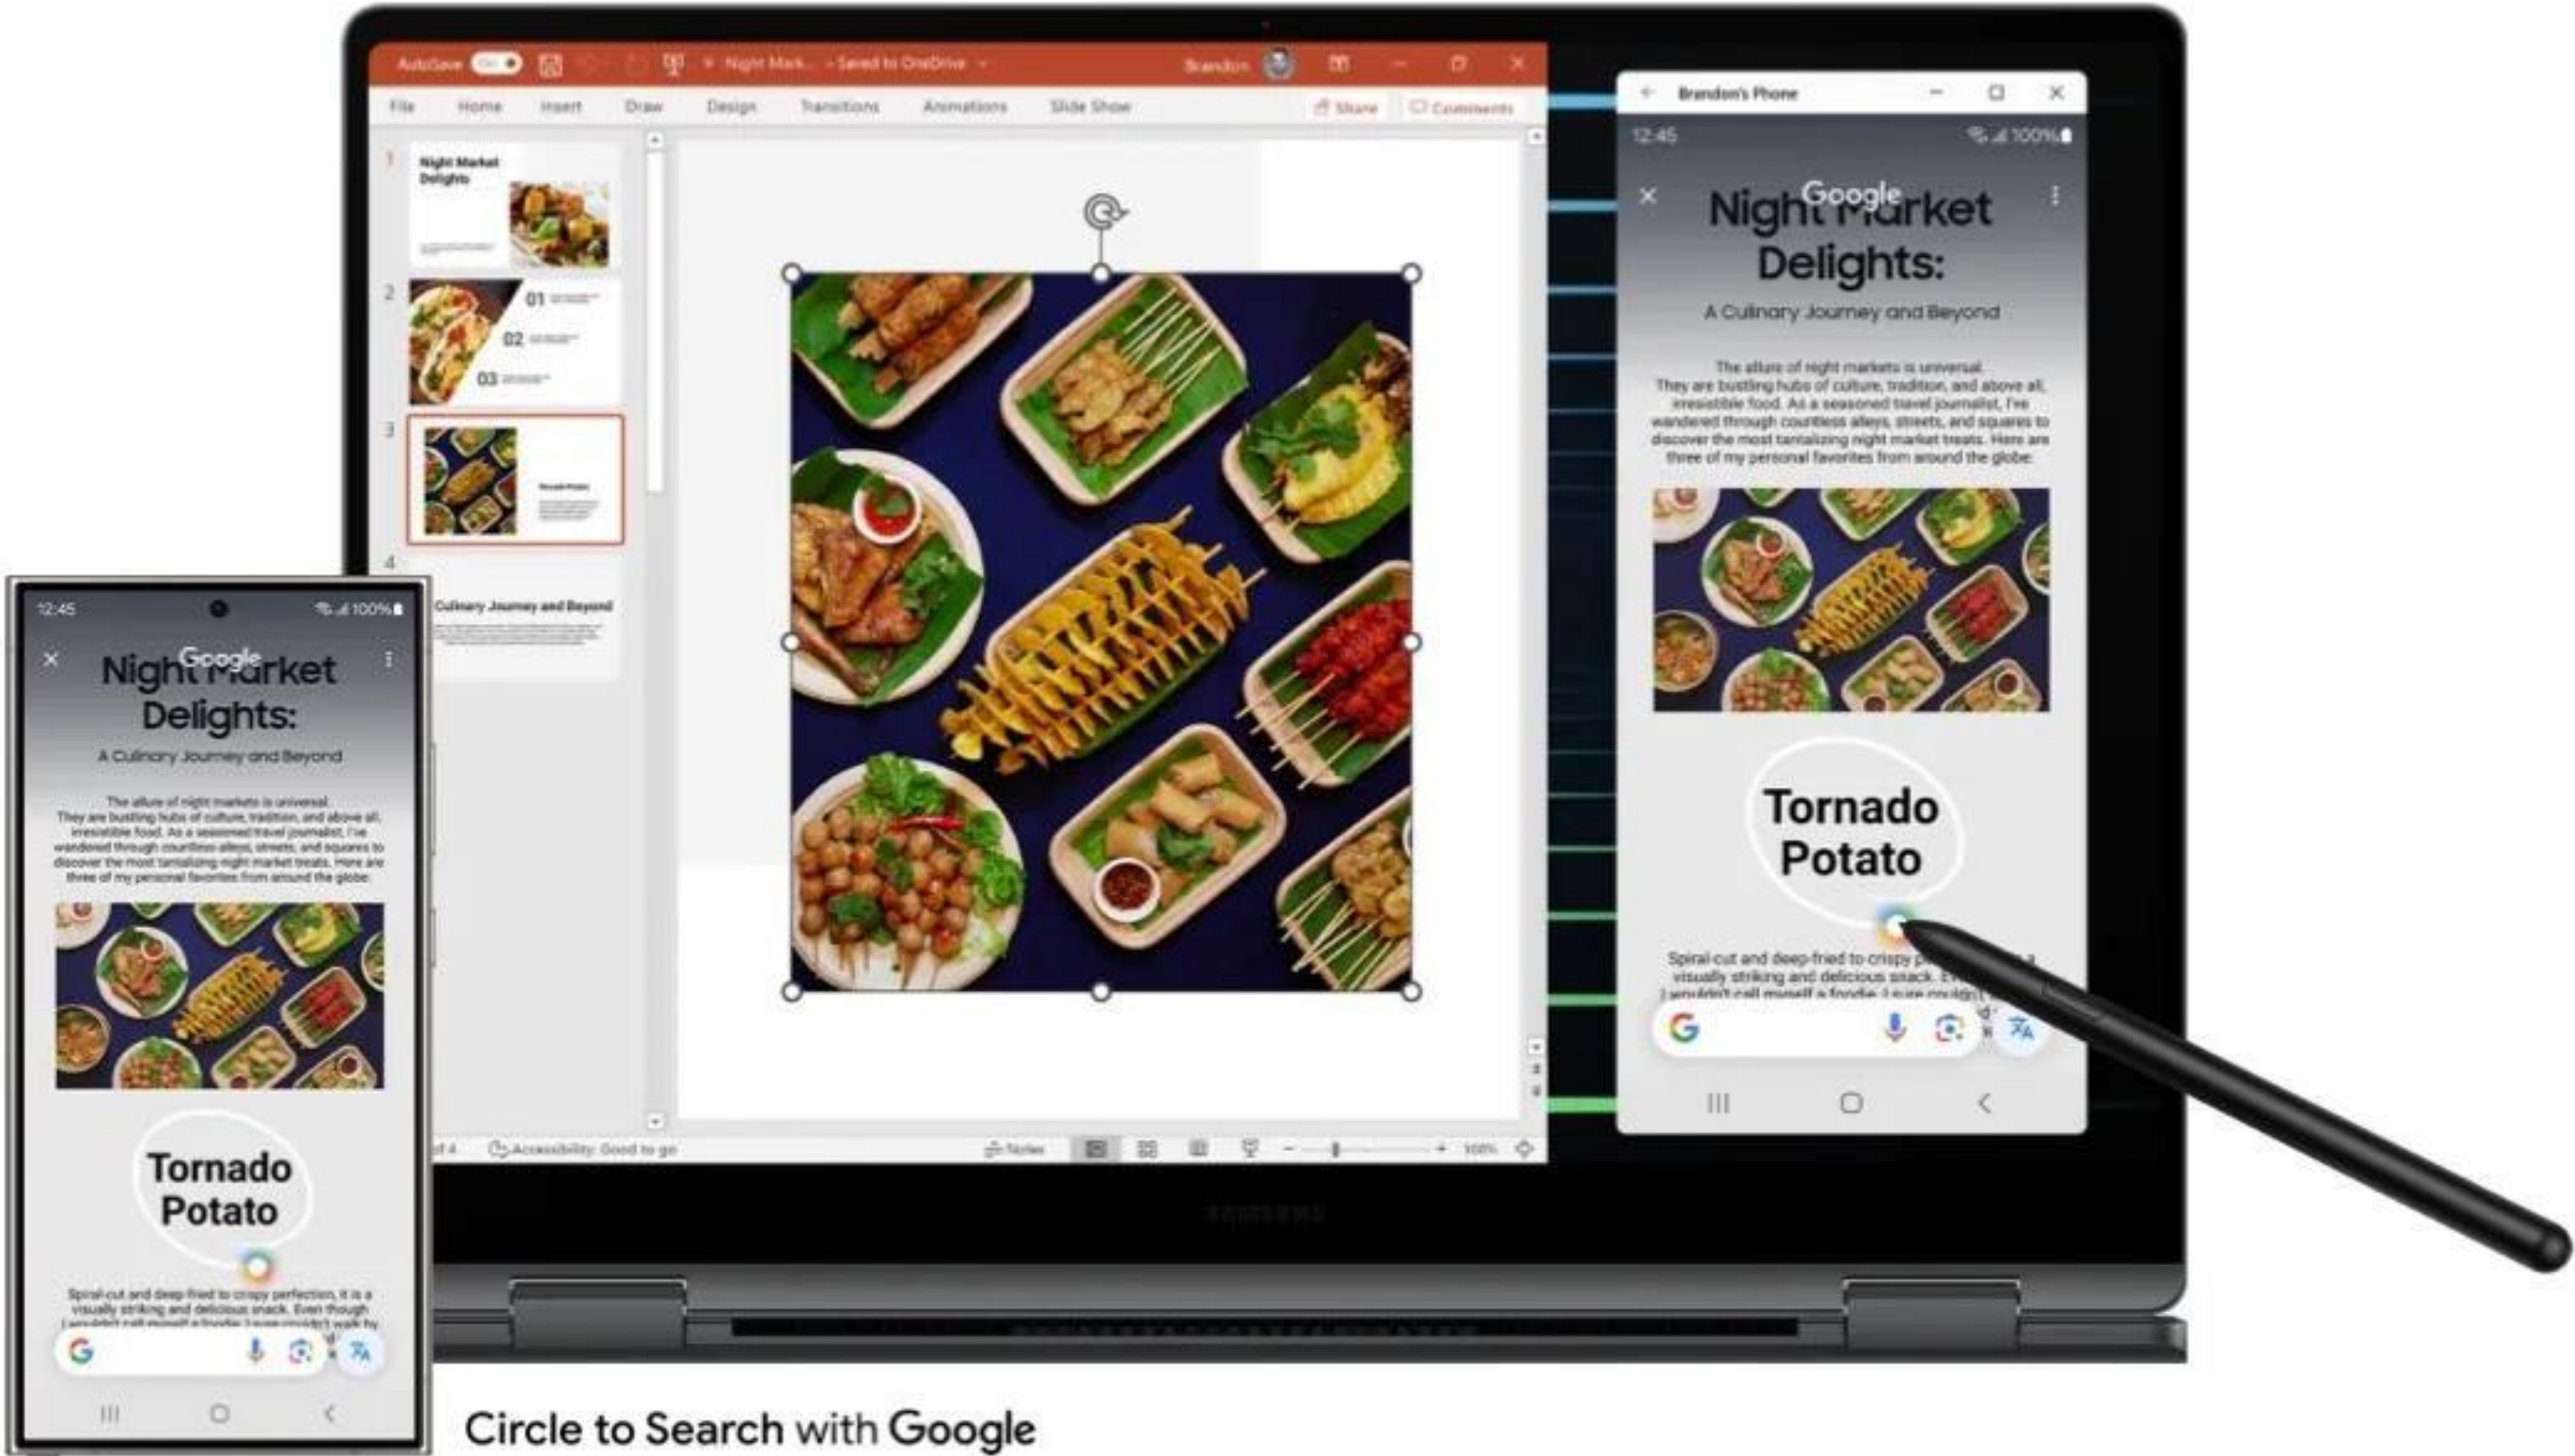

Connect your Galaxy phone to Galaxy Book5 and interact seamlessly.

Circle to Search*

Satisfy your curiosity on the spot.
Simply circle an object to get Google
Search results like never before.

Transcript Assist**

Turn recorded lectures and meetings
into written notes, then translate and
summarize quickly with Galaxy AI.

Circle to Search with Google

Image simulated for illustrative purposes. Actual UI/UX may differ.
*Requires internet connection; results may vary by uniqueness, clarity and framing of circled image and related factors.
**Transcript Assist available only with audio files under 3 hours and recorded using the Samsung Voice Recorder app. Summarizing feature available for text in Samsung Notes only (200-4,000 characters). Translation feature requires language preset (English and Spanish pre-installed; other languages require free download). Samsung account login and internet connection are required.

Seamlessly search and find your work files, and take action right away

Recall on Galaxy Book5 series helps you stay organized by giving you a snapshot of your work history.

Memory Retention

Retrieve accessed files, docs or emails based on keywords or contexts and increase work efficiency by reducing scrapping time.

Suggestions and Reminders

Receive relevant information or reminder based on usage patterns, preferences, and habits, and increase work effectiveness by reducing search time.

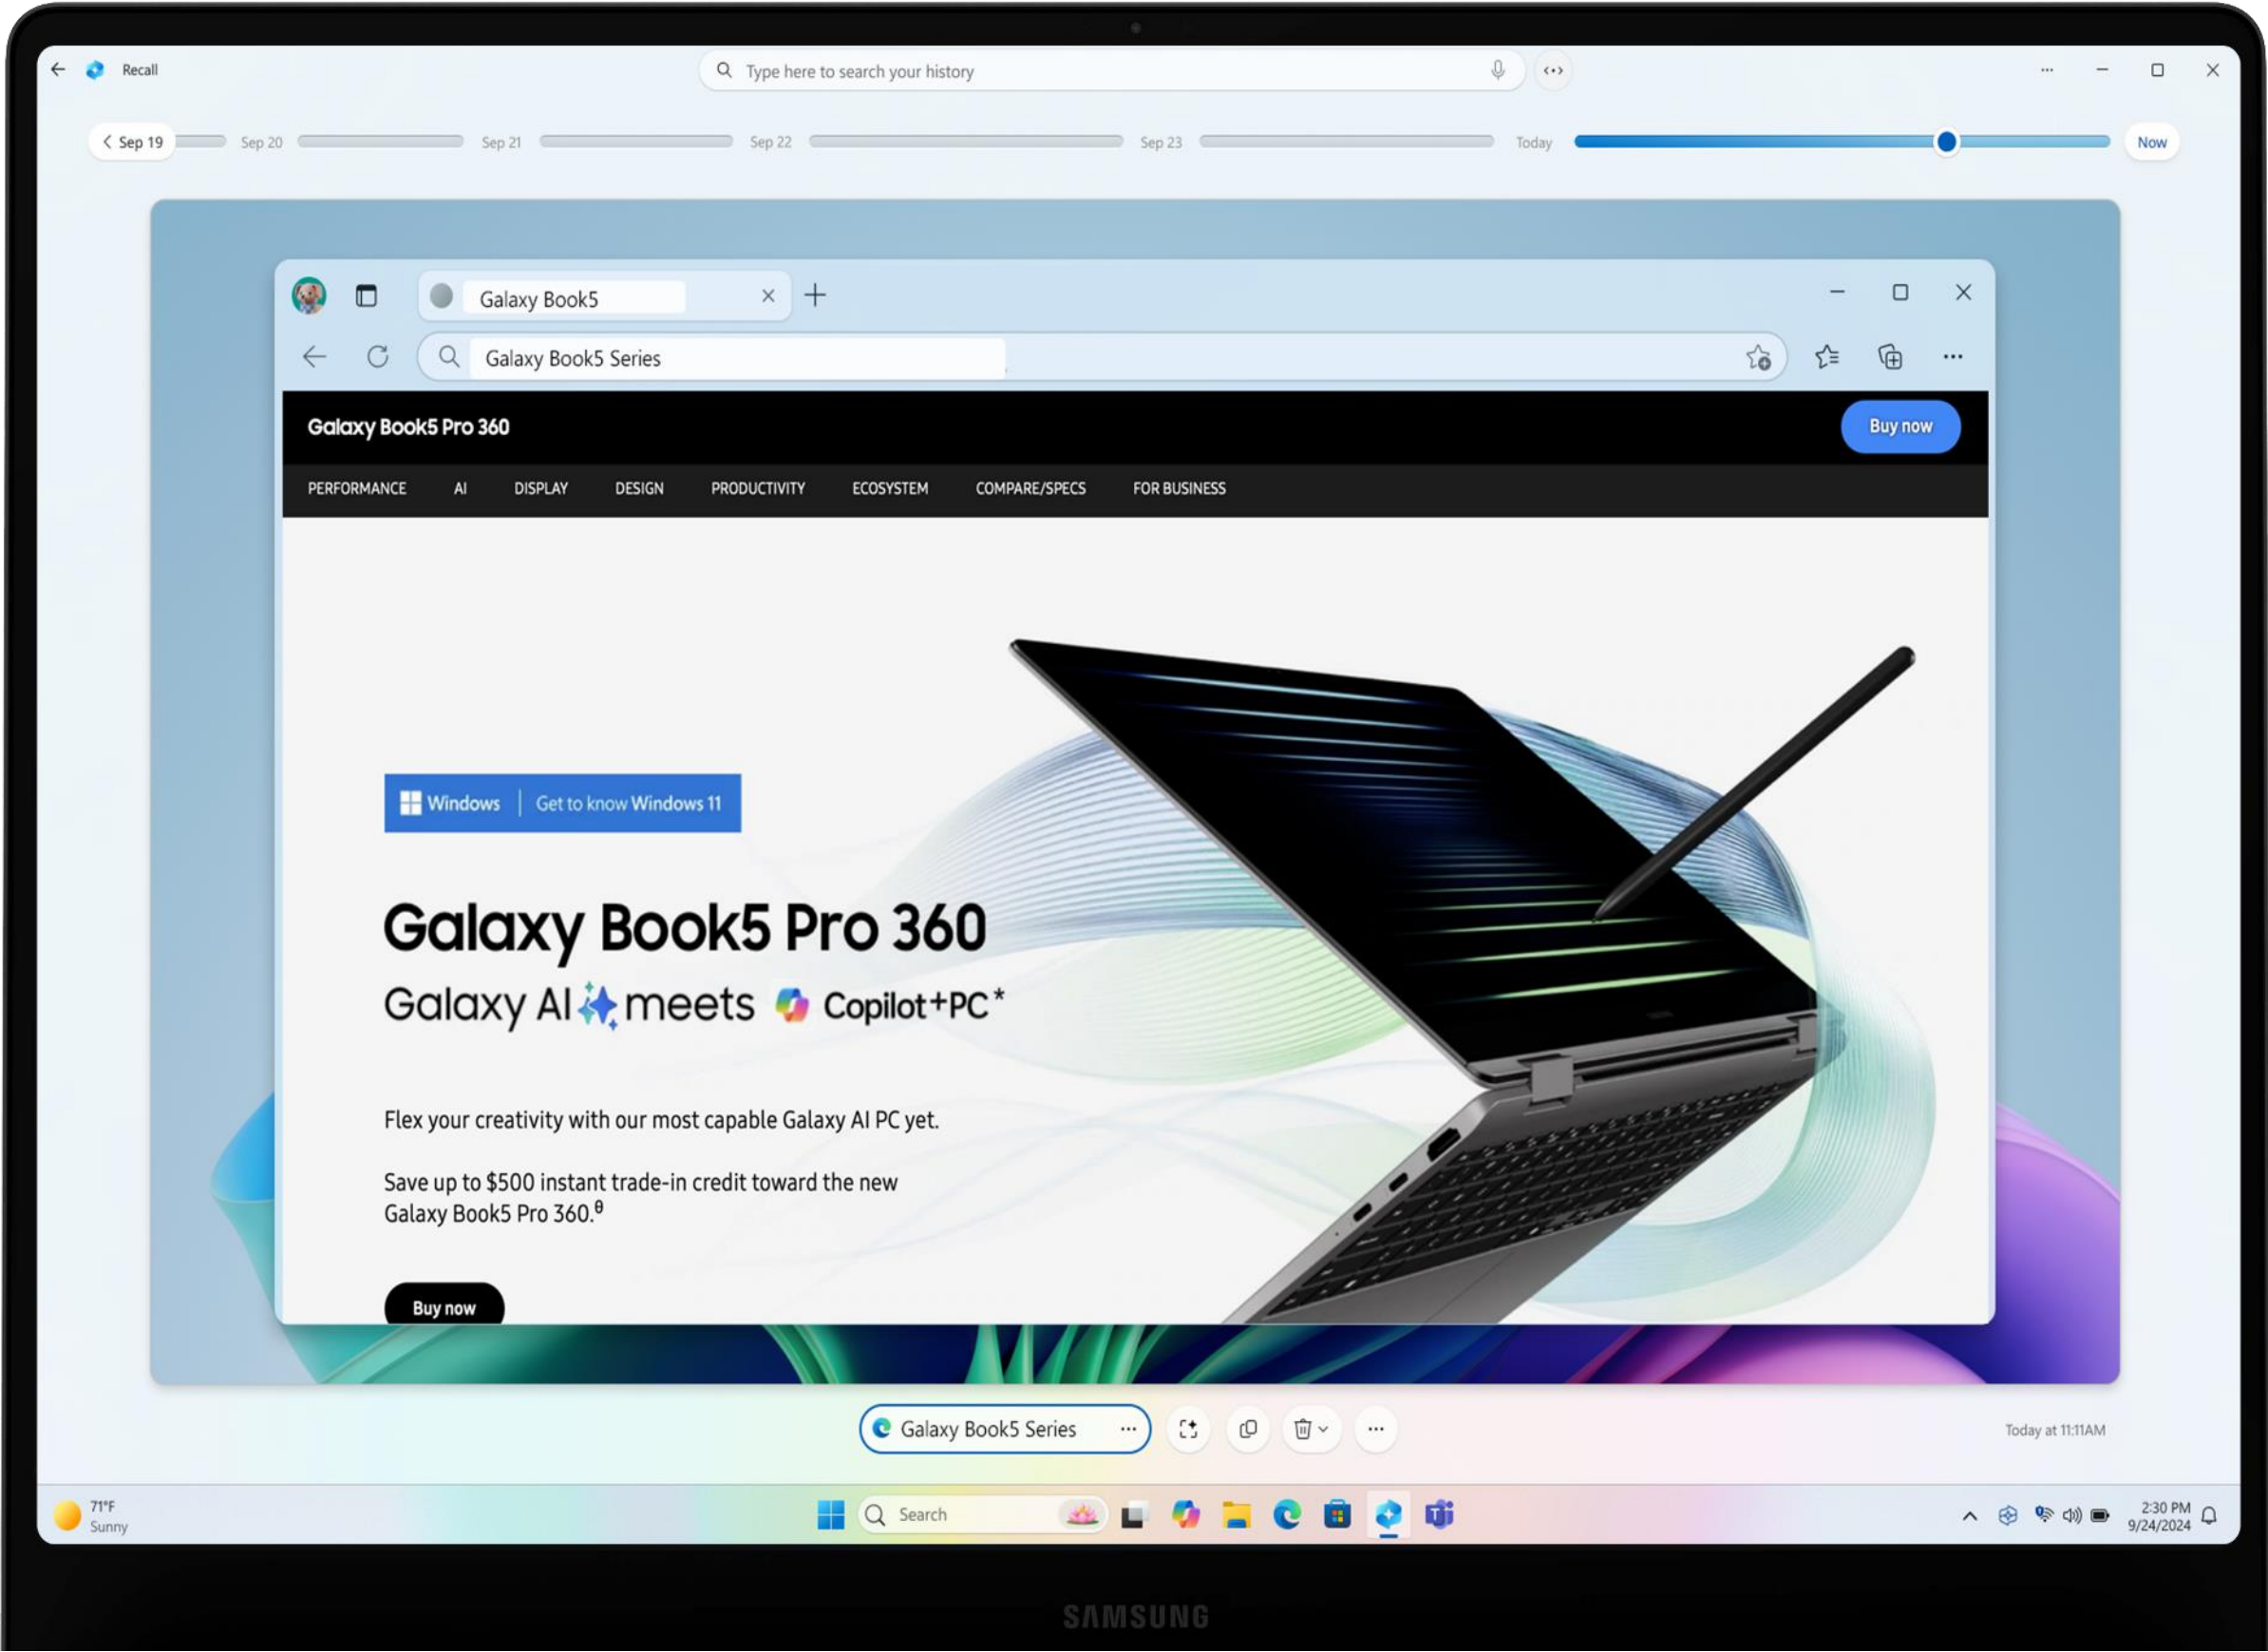

Image simulated for illustrative purposes. Actual UI/UX may differ.
**Expected to be available via future update.
**Book5 Pro, Book5 Pro 360, Book5 360 (exclude Pro 16 ARL)

Seamlessly sync your phone and PC for efficient data management

Galaxy Book5 series syncs automatically with your Galaxy phone, so that you can seamlessly transfer files between devices.

Direct file execution without download

Automatically connect your phone to your PC, and directly execute your PC stored files on your phone without downloading, and vice versa.

Move and copy files between phone and PC

Access files stored on your PC from your phone and vice versa to move and copy files between devices with ease.

Feature availability may vary depending on device, application and country/region.
※ Supported apps : MS Office (PPT, Excel, Word, Outlook) on Windows

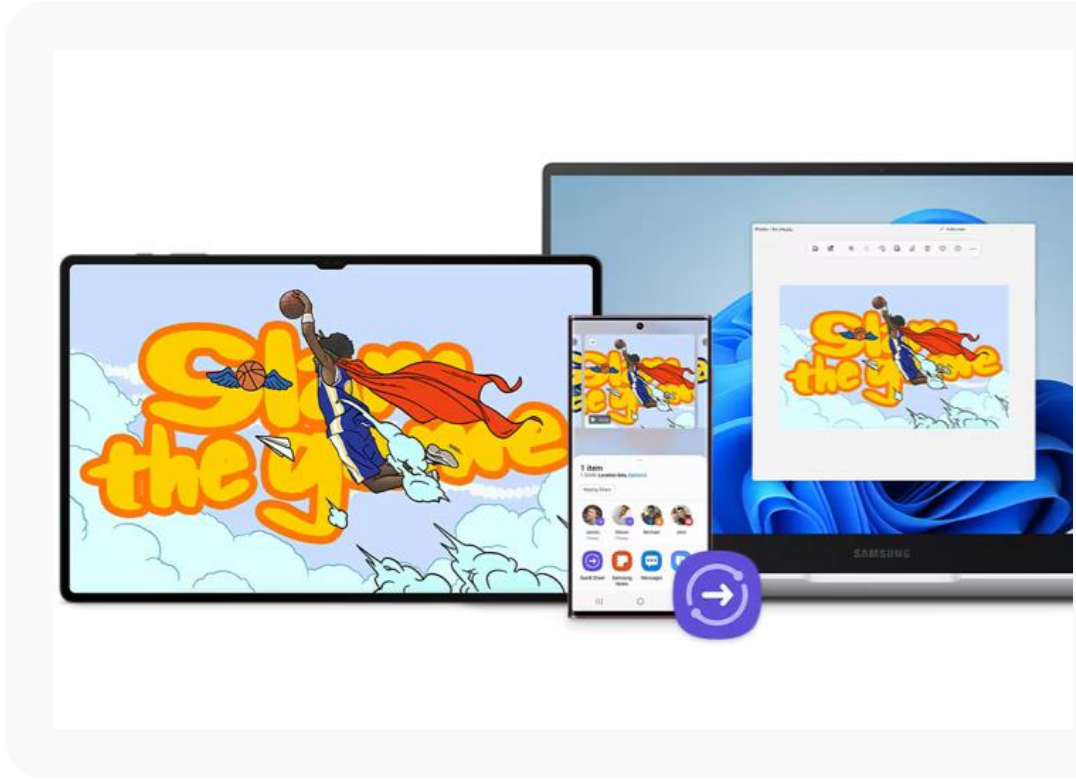

Seamlessly sync your phone and PC for efficient data management

Connect your Galaxy phone with PC and experience seamless device interactions.

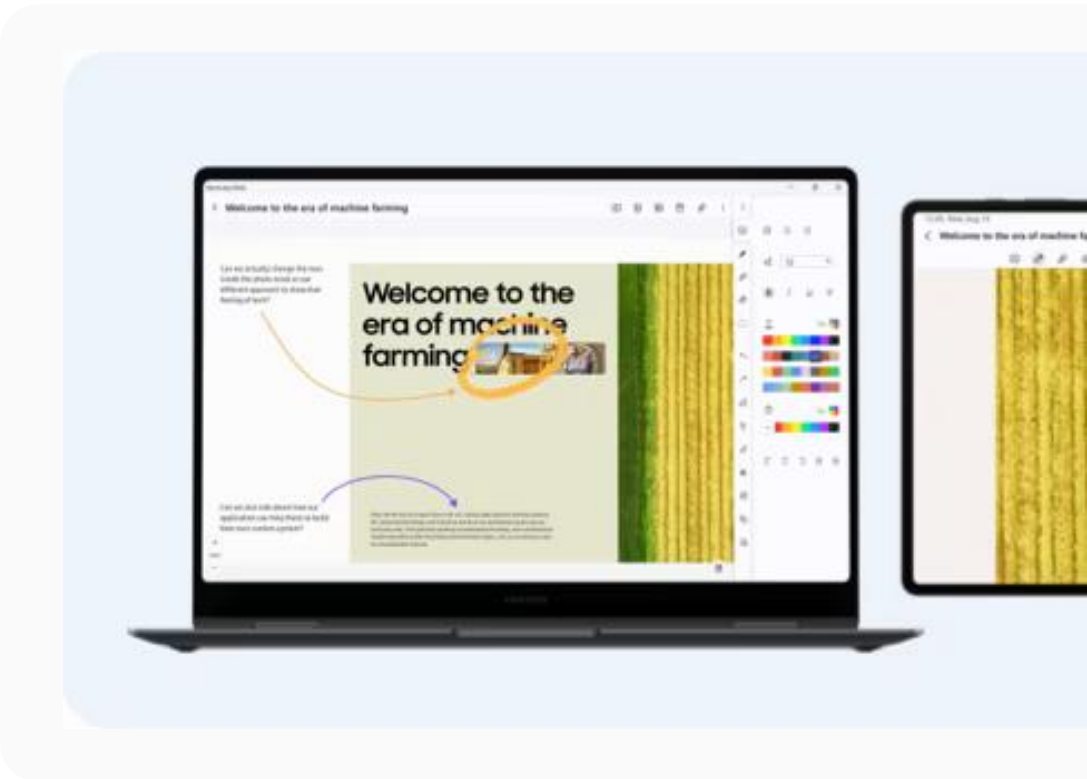

Multi Control*

Use one mouse, keyboard or trackpad to control your Galaxy Book, Tab or smartphone simultaneously. Drag and drop content across Galaxy devices – it's a seamless way to handle your workspace.

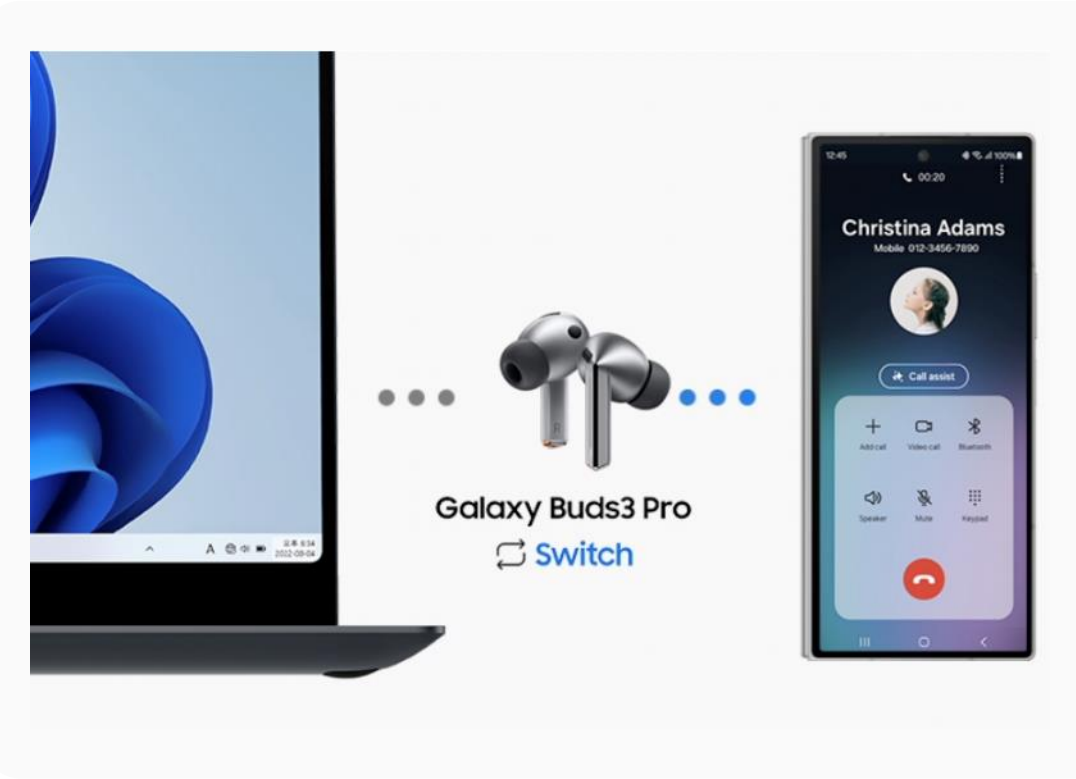

Quick Share**

No more emailing files to yourself. Easily send photos, videos and other large files between Galaxy devices with Quick Share. It's so fast, it's almost like magic.

Second Screen***

Sometimes big ideas need a little more room to come to life. Add a seamless second screen to your Galaxy PC by wirelessly connecting your Tab. Double the screen. Double the productivity.

PC Auto Switch****

PC Auto Switch on Galaxy Buds3 Pro detects audio activity and transfers the connection to your favorite Samsung Galaxy devices, so you can work and play seamlessly.
