

# Work from Anywhere

Supporting the sudden shift to remote work, Acer and Microsoft have teamed up to provide Windows Autopilot enabled devices to support this new workforce.

## The Stage is Set

Remote work is likely here to stay, and they need the right technology to get it done.

**18%**

work  
remotely  
full-time

**77%**

report  
being more  
productive

**30%**

save upward  
of \$5,000  
a year

**99%**

desire  
to continue  
working  
remotely

## Remote Support

The Windows Autopilot enabled Acer TravelMate Spin P4 fully supports this expanded remote workforce.

TravelMate Spin P4 remains connected at high speeds

14-hour battery life and rapid recharge

Engineered to withstand drops, falls, and spills

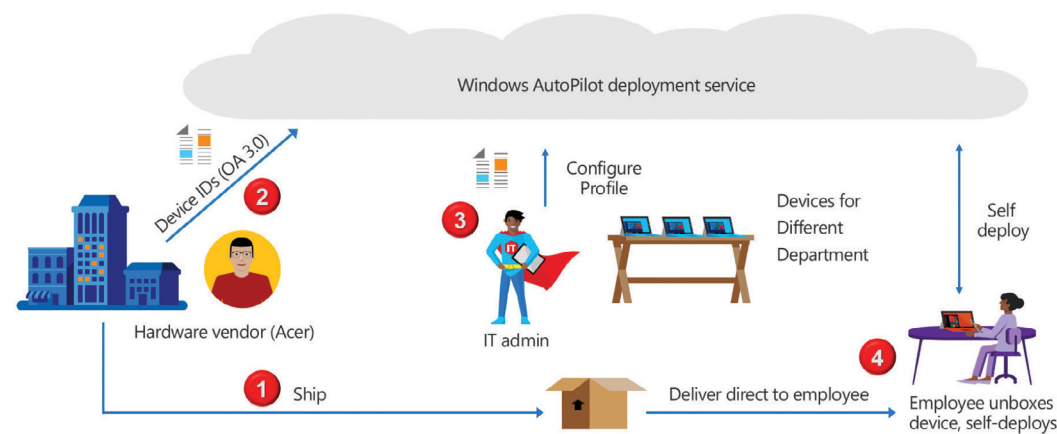

Stringent security requirements, including hardware-level Trusted Platform Module

Automates creating, configuring, and deploying master images

Easier for IT to deploy and manage

Windows AutoPilot deployment program
