Your One Source for All Networking Needs

Without the resources of a large organization, SMBs need a single supplier with a deep product catalog, which are fully compatible with their existing network infrastructures. Thankfully, with AddOn's compatible optics, SMBs can scale their networks with confidence.
100% Compatible Optics

Buy with confidence. Our expertly coded optics are guaranteed to be compatible with your OEM systems.

Maximize Legacy Infrastructures

From GBIC to ZENPAK to XFP, our diverse catalog of legacy optics can enhance your existing infrastructures.

Going Next-Gen

Future-proof your business with cutting-edge connectivity, from 25G to 100G and beyond.

Product Solutions

1G/10G Transceivers

Seamlessly upgrade your existing networks with our fully tested and compatible optics.

Shop >

Network Cabling

Leverage a wide array of cabling options including DACs, AOCs, and patch cables.

Shop >

100G Optics

Explore an in-depth inventory of cutting-edge transceivers, DACs, and AOCs.

Benefits Without Compromise

Quality & Compatibility
Our end-to-end testing guarantees an industry-leading 99.98% reliability rating and full OEM compatibility.

Custom Solutions
AddOn's expert engineers can custom code your optics to support all the features on the OEM switch.

Cost Savings
With AddOn optics, you can avoid the OEM markup and enjoy significant savings of up to 70%.

Trade Compliancy
Most of AddOn's optics are TAA compliant, ready to fulfill any government contract. We also adhere to NEBS, ISO and more to ensure our products are safe and reliable.

Widest Selection of Optics
From legacy 100BASE to cutting-edge 400G, enjoy our deep inventory of transceivers, cables, and much more.

Lifetime Warranty
In the rare case you need it, leverage our lifetime warranty to make sure your network is fully covered.

24-Hour Drop Ship
AddOn is readily-stocked with the optics you need, and we offer same day shipping if you order today.

Advance Replacement RMAs
With AddOn's lifetime warranty, expedite your replacement parts through our rapid RMA system.

24/7 Expert Support
From purchase to implementation, get peace of mind with our worldwide 24/7/365 expert engineering support.

## Learn about our proprietary part tracking and serialization process.

1. OEM Spec Testing
Every unit is custom coded for full feature compatibility.

2. Environment Testing
Each part tested within intended environment to guarantee performance.

3. Quality Control
All orders checked and verified as accurate before shipment.

About AddOn Networks

AddOn Networks is the global leader in optical connectivity solutions serving data center, enterprise, government, education, and healthcare provider networks.

We operate in over 25 countries through our long-standing commercial channels to provide continuity of supply and world-class service.

Find an expansive network catalog from legacy GBICs to cutting-edge 100G, 400G active and passive solutions. Every optic we ship is first programmed and tested to a 99.98% reliability rating in house. We carry solutions that are compliant with the most stringent global compliance standards including ISO 9001:2015, TAA, RoHS, NEBS Level 3, and more. Get 100% compatible optics in form and functionality across 100 OEM manufacturers, covering more than 20,000 systems and platforms.

At AddOn, we're invested in your complete success. All optical solutions are backed by lifetime warranty and 24/7/365 global field engineering support.
