# Insurance Proof of Concept (PoC) Bundles

To conduct thorough and accurate inspections, insurance agencies need a lot of tools – from important paperwork and insurance records to audio recorders and cameras. Carrying all of these tools and using them to the best effect, however, can be a challenge in completing work:

**An abundance of tools and forms** means it's easy for field workers to lose equipment and records.

**Employees have a steep learning curve** when it comes to onboarding and training for insurance agencies.

**Agencies rely heavily on independent agents** to reach the most customers and facilitate claims.

## To meet these challenges, choose an Apple PoC bundle made exclusively for insurance:

### For Employees on the Ground The Field Inspection Bundle

**Bundle Includes**

- One (1) 12.9" iPad Pro
- One (1) iPad Magic Keyboard
- One (1) Apple Pencil (2nd Generation)
- One (1) USB-C Multiport Adapter
