

HP COMMERCIAL DISPLAYS

The future of work
brought to life

Your display is where the magic happens

Regardless of your budget or task, HP commercial displays have you covered with a wide array of designs that combine powerful functionality, industry-leading security, and a modern aesthetic. Whether you're an office-based productivity powerhouse, mobile pro on the move, financial wizard scanning massive video walls, or a groundbreaking creative team designing the next trending product or blockbuster film, we have a display for that.

Open workstyles

Efficient workspaces

Constant collaboration

Welcome to HP displays

Spectacularly built for today's workforce

Fabulous front-of-screen experiences

Ensure that your content and projects come alive the way you imagined—with no distortions, and in a range of high resolutions, aspect ratios, and screen sizes. Go with one screen or many, tiled together in virtually seamless multi-display arrangements with three-sided or four-sided micro-edge bezels.¹

An investment that lasts, all over the world

Trust a display that is engineered with the highest-grade components, undergoes extensive development testing, and is backed by a worldwide limited warranty. If you need to deploy displays across town or across the world, choose from several Global Series displays with stable product lifecycles and worldwide availability. The HP Zero Bright Dot Guarantee covers the replacement of an HP Z Display if even one sub-pixel fails.

Create a small-footprint solution

Maximize small workspaces when you mount an HP Desktop Mini behind your display. Or keep things compact with HP accessories like an HP Single Monitor Arm to take the display off the desk, an HP USB Graphics Adapter for multi-display setups, or an HP S100 Speaker Bar for space-saving audio.²

Set up a collaboration command center

Collaborate anywhere in the world at a moment's notice with an HP commercial display that's certified for Skype for Business with integrated conferencing controls and a webcam. For large conference rooms, pair a large-screen 55" diagonal display with the HP Elite Slice. Or add an HP UCC accessory like a collaboration keyboard or headset with built-in call controls. To learn more, visit hp.com/go/collaboration.

So much more than a display

Pick the right display for your project and your space, from traditional to curved to touch. Beyond the screen, HP commercial displays also boast several productivity enhancements. Available built-in docking streamlines your cabling while wireless charging eliminates it altogether. USB-C™ allows single-cable connectivity to your devices. Enjoy crisp sound for all your media on displays that have webcams and Audio by Bang & Olufsen.

And that's just for starters. It's time to meet the full lineup of HP displays, beginning with the HP Z Displays.

HP Z DISPLAYS

The best way to create the future is to see it

When your project is make-or-break, only the best will do. HP Z Displays come right out of the box with color calibration and accuracy to ensure consistent imagery between displays in the office, on-set, across the hall, and around the world. Experience jaw-dropping image presentation at up to 8 million visible pixels and

resolutions up to Cinema 4K. Select models include HP DreamColor technology, which won the 2015 Scientific and Engineering Award from the Academy of Motion Picture Arts and Sciences.³ To learn more about HP Z Displays, visit hp.com/go/zdisplays.

HP ELITEDISPLAY S-SERIES

Breathtaking visuals that inspire from every angle

HP EliteDisplay S-Series premium displays are purpose-built for the workplace of the future with refined, elegant materials for an exceptional experience and modern aesthetic, in screen sizes up to an impressive 34" diagonal. Choose a 4K micro-edge monitor for maximum visual impact and optimal

productivity or lose yourself in a curved screen. Our USB-C-powered portable display is an on-the-go, single-cable, dual-screen solution for mobile workers.

To learn more about HP EliteDisplay S-Series, visit hp.com/go/elitedisplays.

HP ELITEDISPLAY E-SERIES

Take your productivity to the edge

Deploy an everyday office workhorse that looks like a thoroughbred. The HP EliteDisplay E-Series meets your demanding presentation, performance, connectivity, and ergonomic needs and looks great while doing it.⁴

They're available with three-sided micro-edge bezels, perfect for multi-display setups that provide expansive, uninterrupted views.¹ Choose from full, WUXGA, or Quad HD in screen sizes up to 27" diagonal, advanced connectivity, and the best comfort adjustability HP has to offer.

Maximize productivity in small spaces with models that combine expanded functionality in a single display footprint with features like expertly tuned Audio by Bang & Olufsen and a webcam for collaboration, a touchscreen for onscreen interactivity, or an integrated in-stand dock and port replicator for your device and accessories.

HP PRO DISPLAYS

All-star features without the all-star expense

Give a boost to daily office productivity with HP ProDisplays in screen sizes up to 23.8" diagonal. These displays combine essential features like Full HD image presentation and multi-device connectivity and are available at price points that are well within your budget. To learn more about HP ProDisplays, visit hp.com/go/pro.

HP VALUE DISPLAYS

Budget, basic features, and beauty

Be smart and stylish without breaking the bank. HP Value Displays are available in standard and curved designs in screen sizes from the compact 18.5" diagonal up to 31.5" diagonal and offer affordable business-class features such as Full HD screen resolution and everyday connectivity, all backed by an HP standard limited warranty.
