ThinkOwl

Behind. Virtual. Solo.

It's the hard reality students in your district face.

You can be there to help them 24/7 with

ThinkOwl's Homework Helpline!

Being behind, virtual, and alone at home is stressful

Students will think many things to themselves:

- "I'm not good enough"
- "I don't get it"
- "I feel like quitting"
- "This is too hard"
- "I'll never catch up"
- "I hope I don't get held back"

Some percentage of students will :

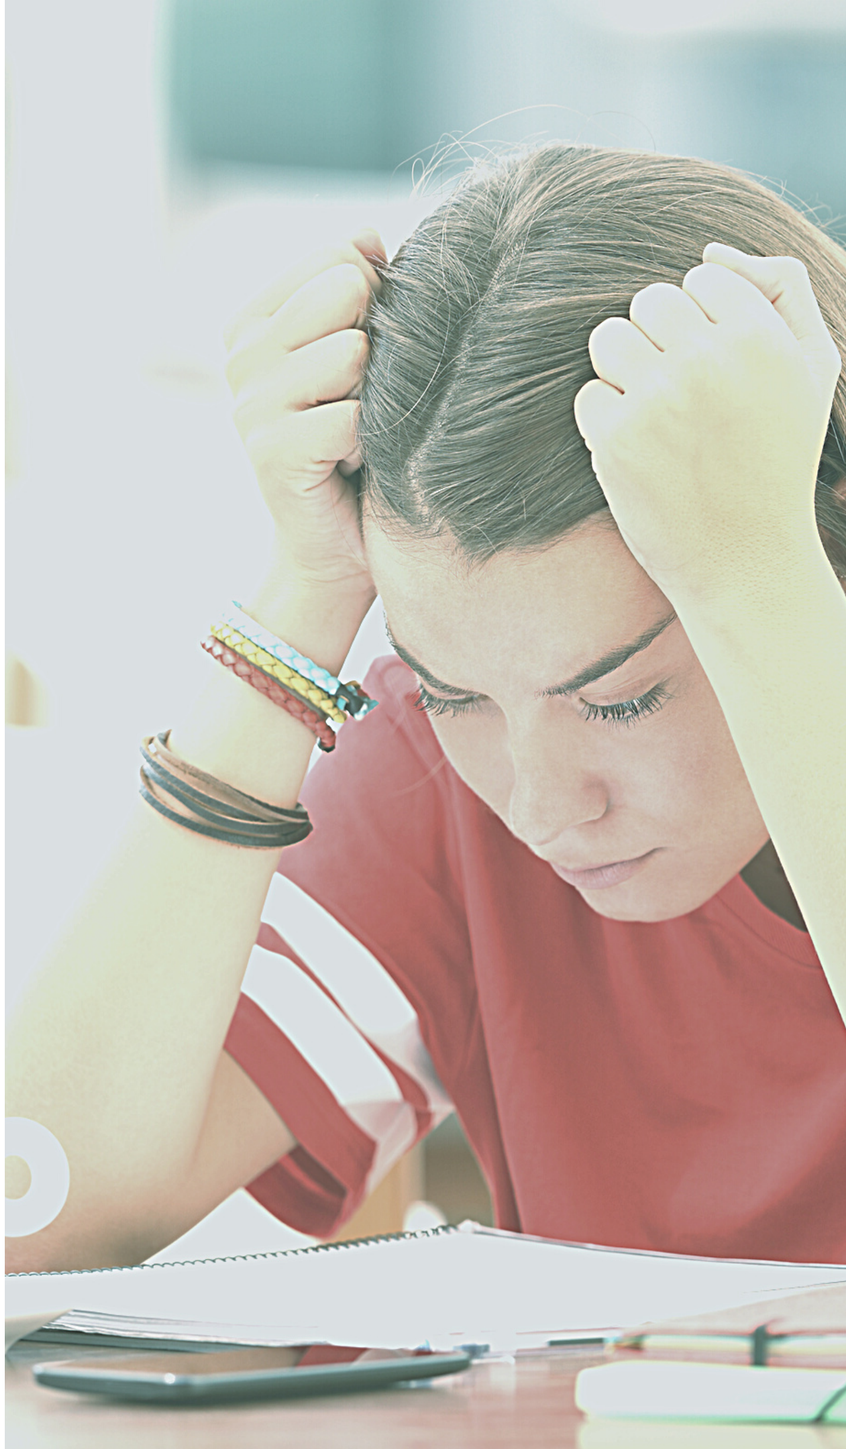
- Dig in and learn

Most will:

- Tune-out and disengage
- Self-medicate
- Behave negatively
- Struggle to cope with life outside of school

What most of us want for 100% of our students:

- To have their best shot at thriving



ThinkOwl

Introducing

Homework Helpline

Powered By ThinkOwl

Taking student performance software to the next level with automation & AI, in the cloud

ThinkOwl

Early failure identification and prevention

Every channel access, for all subjects

Call, Email, Text, Chat, & Zoom.

Students can get help with any subject, anywhere.

Quality at scale

Stop choosing between quality over quantity.

With AI, you can do a great job millions of times over.

1:1 support

Individualized support you can't always get in the classroom.

Empathy & sentiment

Automatically analyze the sentiment of students when they are struggling the most, and understand what words they use to ask for help or express difficulty understanding.

All districts, all students

Kids in wealthy and poor districts deserve access to the same resources.

This one is infinite and has no opportunity cost.

ThinkOwl

It's premium, out-of-the-box

State Standards & Core Subjects

Customizable | Math, Science, Social Studies, English, AP/IB, STEM, Common Core, & more.

Response to Intervention

Mobilize the right support for the right subject the moment every student needs it.

Real-time Notificactions

Student Q&A logged and report sent to all relevant stakeholders.

Enterprise-grade Knowledge Base

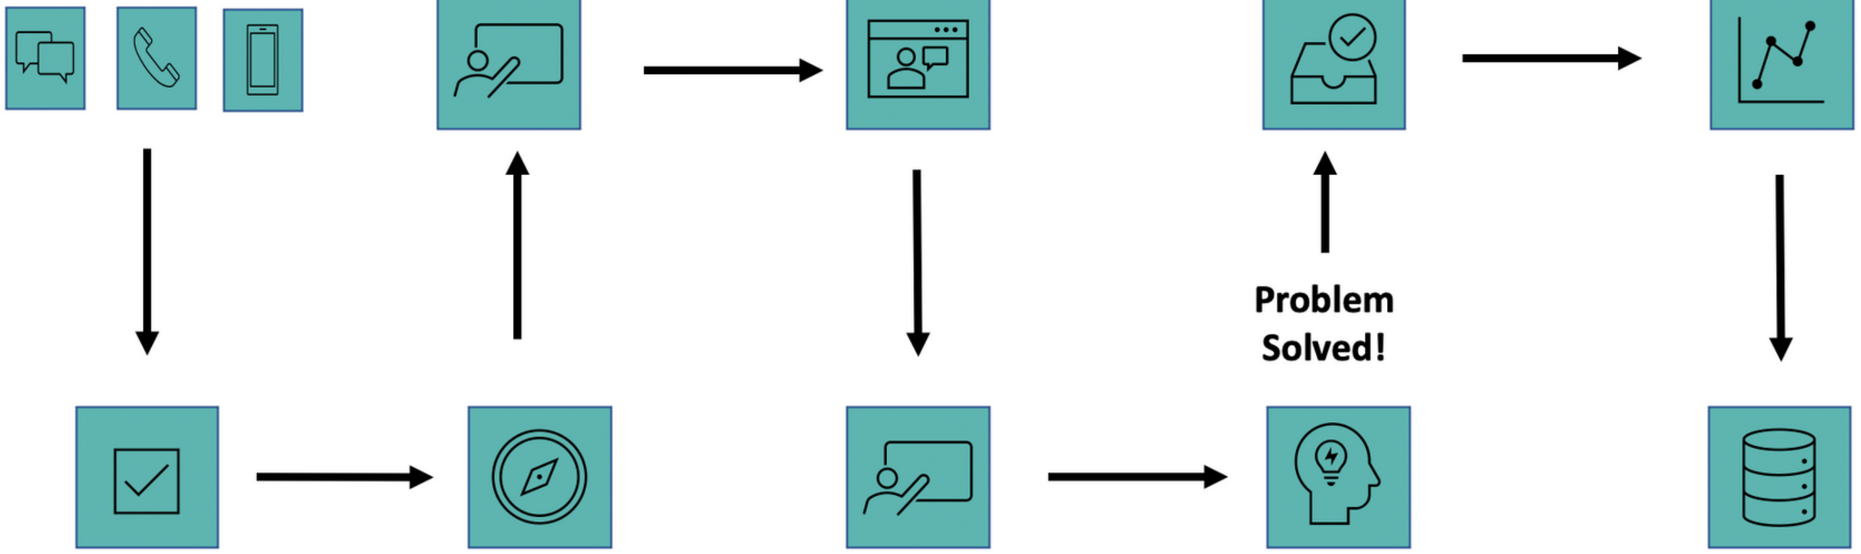
Resource recommendation engine with must-have integrations: SIS, LMS, Google, Classroom, Whiteboards, etc.

Customizable Dashboard Analytics

Know where students are struggling across entire populations for additional corrective action in class.

ThinkOwl

The homework helpline experience



Engagement | **Support** | **Learning Improvement**

ThinkOwl

Fully funded & compliant solution

FERPA-compliant Education Assistive Technology, qualifying it as Student Performance Software under ARP ESSER Fund guidelines.

Immediately-available funding

We'll work with our partners to access the funds granted to you from the Federal and State governments just waiting for you to utilize it.

Your people, our tech

Keep your tutors and furloughed teachers engaged with students as you rebound out of pandemic circumstances.

Full compliance

We meet all the data and cloud regulatory requirements for publicly traded companies and academic institutions.

ThinkOwl

Enroll in our Esser accelerator program

Set up an EAP onboarding call with our success team

We'll capture the required information to get the administrative components completed as a done–with–you service.

Select your package

The Homework Helpline powered by ThinkOwl comes with premium features out of the box but in some instances districts have opted for more.

Deployment roadmap

Your district is unique and has its own requirements. We want to ensure that you have a successful deployment without delays.
