

# With today's shifting cyberthreats, status quo security isn't enough.

Go beyond traditional with a strong security solution that helps protect against emerging threats.

Running a smaller business means wearing a lot of hats. "Security" shouldn't have to be one of them. Verizon Business Internet Secure is a strong security solution that helps protect your devices, business information and financial records—even as new threats emerge.

This powerful bundle of security tools combines anti-virus software with internet security, giving you a level of protection that goes beyond traditional antivirus solutions alone to help protect computers, smartphones and tablets on your network. And it's all backed by 24/7 expert tech support that you can call to adjust protection settings to fit your needs.

## How Business Internet Secure helps protect your business

Business Internet Secure is easy to use and offers more robust protection than traditional antivirus solutions alone. It provides:

-  **Strong protection**  
Internet security to help safeguard your devices by blocking access to malicious websites.
-  **Proactive threat detection**  
Predictive antivirus software provides alerts before a threat becomes a serious attack.

### 24/7 security tech support

Call any time for installation, deployment and management support of your security solution.

### Simple control

An online dashboard on our website makes it easy for you to manage devices and monitor activity.

## Why Verizon

25+ years of security experience

A leader in Gartner's Magic Quadrant for Managed Security Services, Worldwide<sup>1</sup>

## Learn more:

To find out how Business Internet Secure can help protect your business, contact your Verizon Business Account Manager or visit [www.verizon.com/business/products/secure-business-internet](http://www.verizon.com/business/products/secure-business-internet)

Available to businesses with 19 employees or less. Business Internet Secure licenses are sold in packs of 5, 10 and 25 with one license covering one device (laptop, desktop, smartphone or tablet). Prices listed are monthly and exclusive of taxes and fees. Terms and conditions apply.

WIRELINE: Requires current Fios Business Internet service.

WIRELESS: Requires current Verizon Wireless Business Internet service with an eligible router.
