POWERFUL FUNDRAISING SOLUTIONS

“I love using FileWave because ***FileWave is on top of the changes Apple is making and continues to make their platform effective for our needs.*** FileWave's support team is always ready to jump in if needed.”

**Rick Seifert**  
*Senior Director of IT, OneCause*

# ABOUT OneCause

*Indianapolis, Indiana*

- **Industry:** Software
- **Number of Devices:** 1,600
- **Active Operating Systems:**

*“Without FileWave, we'd be spending a lot more time in the warehouse formatting iPads and addressing tough security questions from our end users.”*

**- Rick Seifert**

“We had a strong desire to use FileWave on our own servers running in the cloud. ***FileWave support helped us all along the way*** to make sure that we were deployed correctly and that the complexities of using an MDM with Apple Device Enrollment Program and the Volume Purchase Program could be met.”

**Rick Seifert**

*Senior Director of IT, OneCause*

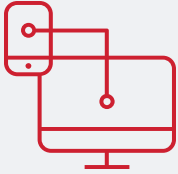

# CHALLENGES BEFORE FILEWAVE

## DEPLOYMENT CHALLENGES

*It was difficult for the IT team at OneCause, Inc. to deploy software and security measures for the iPads across the country.*

## COMPLEX ENVIRONMENTS

*The IT team at OneCause, Inc. needed support when it came to the complexities of using an MDM with Apple Device Enrollment Program and the Volume Purchase Program.*

## DEVICE TRACKING

*OneCause, Inc. needed to be able to mark iPads as "missing" and it was difficult to execute when they couldn't gather device information.*

**“If I did not have FileWave, *I think we would spend between 10 and 20 hours per month* on iPad work.”**

**- Rick Seifert**

“On a day-to-day basis we don't interact with our iPads much, but during equipment refresh cycles or new deployments, ***FileWave is an indispensable tool. In just a couple hours we can deploy hundreds of iPads*** that synchronize with the FileWave server, load our managed profile, and make them field ready. In a return scenario, we are able to issue a mass refresh to hundreds of iPads and make them ready to go back to the leasing company.”

**Rick Seifert**

*Senior Director of IT, OneCause*

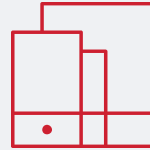

# HOW FILEWAVE HELPED

## **SIMPLIFIED DEPLOYMENTS**

*OneCause can deploy hundreds of iPads in a couple of hours that synchronize with the FileWave server, making them ready for the field.*

## **DEVICE INVENTORY**

*FileWave offers functionality for device tracking, maintaining inventory, gathering device information and re-imaging in one convenient view.*

## **MASS REFRESHES**

*In the scenario that OneCause has to send iPads back to a leasing company, FileWave makes it easy to do a mass refresh at one time.*

## **LOCAL PARTNER**

*OneCause was wanting to work with a local MDM provider.*

# ONE TOOL FOR ALL DEVICES
