

Foster the future of learning with Google for Education

We've built the tools to transform teaching and learning at scale. Now, educators and IT admins can enable students to learn better together – wherever they are.

Productivity tools
that can be used anywhere, anytime
G Suite for Education

Devices
that are powerful, yet simple
chromebook

Class content
that brings learning to life
Google Classroom

Can you imagine a school...

Where **students** performed

their best work with personalized tools

Where **teachers** connected

with all students more meaningfully

Where **IT admins** optimized

the management of 1,000s of devices

Offering the tools that help, where you need it most

Flexible and personalized learning helps students achieve their best results.

Scaling 1-on-1 learning to the whole classroom helps teachers have more face time with students.

Centralized and secure management tools help IT admins scale easily as you grow.

Helping educators, IT admins and students by being:

Easy to use

Flexible and scalable

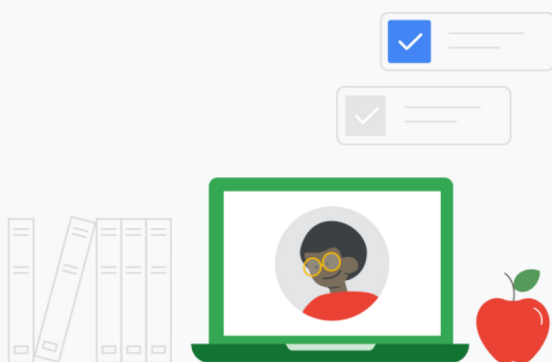

Built for collaboration

Secure by design

Why Google for Education

100 million students and educators using Google Classroom

40 million students and educators using Chromebooks

120 million students and educators using G Suite for Education

Chromebooks are **top selling device** in US, Canada, Netherlands, Sweden, New Zealand
