

Power your cloud workforce with Chrome Enterprise

June 2019

Personal time increasingly spent in the cloud

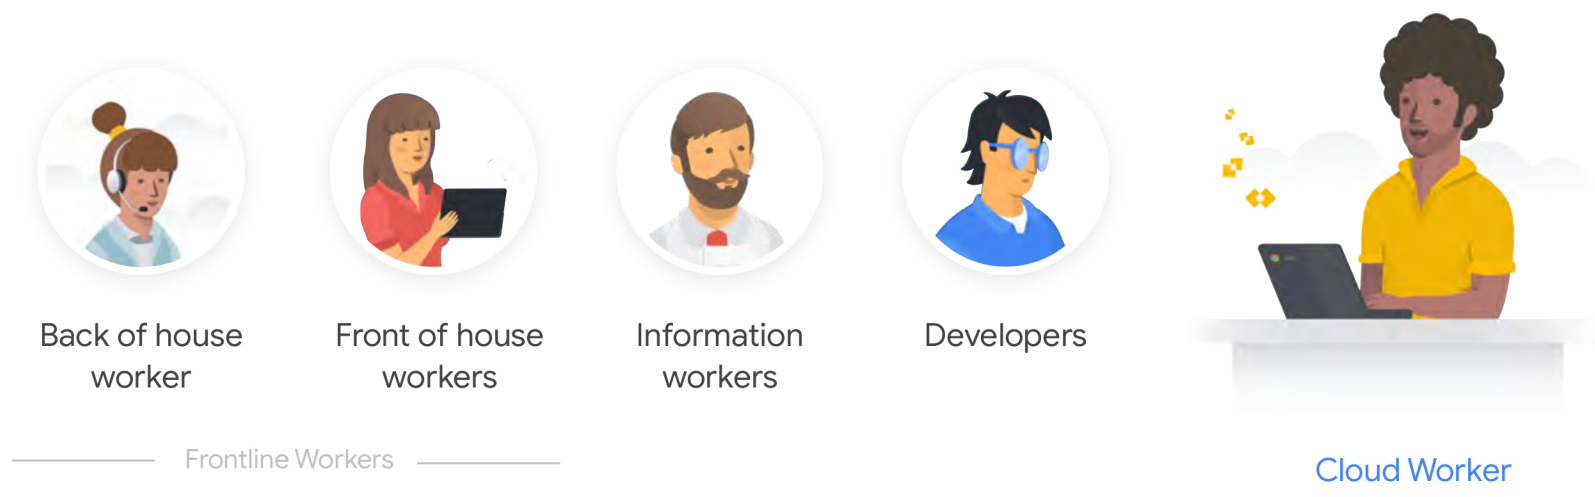

71% of IT decision-makers say rapid technology changes have evolved the organization's expectations of employees' day-to-day work

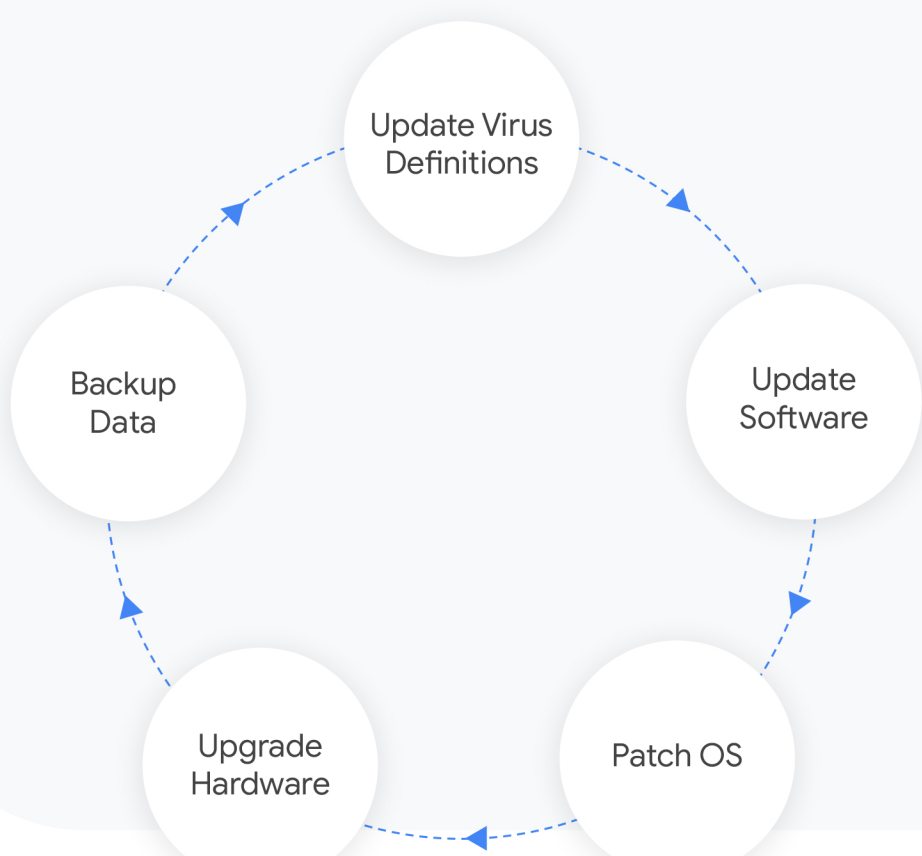

A new breed of worker – the cloud worker

- Expects to work securely from any device or location
- Values speed, convenience, collaboration and fluidity of work
- Uses primarily cloud-connected applications for work

All workers can be cloud workers

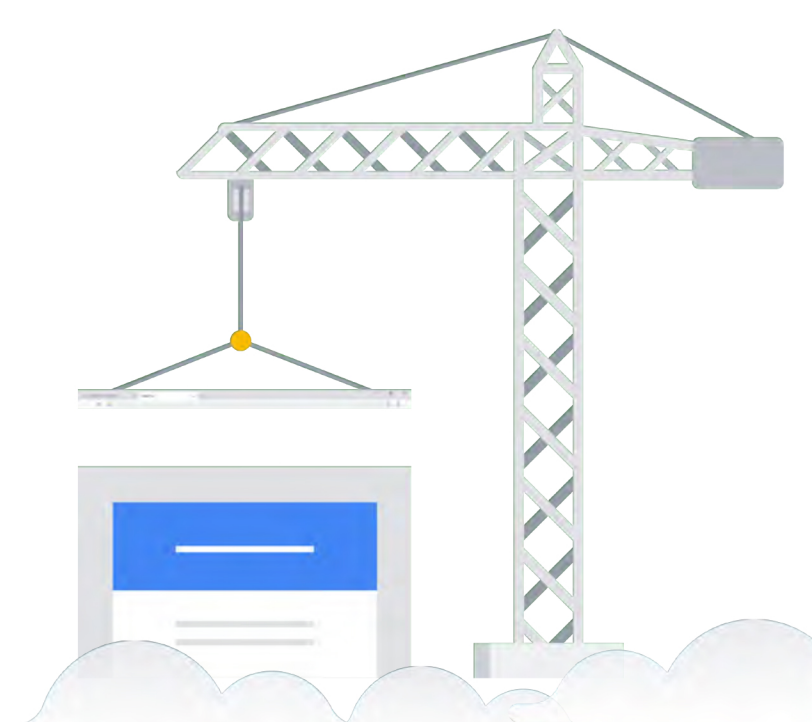

Legacy endpoints don't support new ways of working

83% of enterprise workloads will be in the cloud by 2020

77% of enterprises have at least one application or a portion of computing infrastructure in the cloud

Don't leave endpoints behind in your move to cloud

Benefits of a truly cloud-native OS, a modern OS available today
