# Connected Transportation for Education

Safer, smarter and more efficient school transportation for students.

CISCO

Anywhere Learning

Students can continue their studies while enroute.

Wifi-Enabled Vehicles

Students remain connected before the school day begins and after it ends, giving them more time to complete assignments.

Smart Video Surveillance

Improve passenger safety and monitor student and driver behavior in real-time for faster incident response.

Alerts and GPS Tracking

Track vehicle location in real-time and send alerts to personnel if vehicles travel outside of assigned routes or need maintenance.

Beyond the Bus

Connected technology can also be utilized on vans, cars and other school vehicles.
