

10 WAYS HIGHER EDUCATION IS USING VIDEO

INNOVATIVE STRATEGIES TO ENHANCE LEARNING FROM ANYWHERE

DISTANCE LEARNING

Provide the benefits of real classroom experiences from anywhere.

Logitech Video Collaboration Solutions connect people from around the world, allowing them to be part of the conversation while humanizing the learning experience to feel like they are in the same room.

CONNECT WITH PROS

Provide students and educators with access to industry professionals.

Logitech's video tools unleash opportunities to virtually bring real-life world relevance and career exposure to all.

Logitech technology **“transforms distance learning and online learning... with more robust opportunities for students”.**

FLIP THE CLASSROOM

Pre-record lectures and send to students prior to in-class/online discussions.

With the Logitech Brio webcam and Logitech Capture software, professors can record themselves and present shared content with picture-in-picture capabilities.

STUDENT SUBMISSIONS

From self-assessments to submitting video-based assignments, students need the right tools for self-reflection and skill building.

Provide students with Logitech webcams and headsets to unleash creativity and enhance the learning experience.

RECORD LECTURES

Enhance student satisfaction and comprehension by providing recorded lectures.

Logitech video solutions are compatible with all leading collaboration platforms making it easy to record and then host videos for students to access lecture recordings.

COLLABORATE 24X7

The demand for anywhere, anytime collaboration is made possible via video.

Whether in a small breakout room on campus or from the comfort of their home, students value how Logitech video solutions allow them to connect face-to-face and enhance teamwork.

GRADE ASSIGNMENTS

Skip scribbling notes on assignments and capture feedback over video instead.

Easily show student work and record commentary to provide rich feedback on completed assignments with a webcam, headset and Logitech Capture software.

ON-DEMAND TRAINING

From student how-to videos to faculty recordings for self-review, creating a content library is an easy and quick way to provide on-demand resources.

Record content from any space with Logitech's portfolio of video solutions ranging from conference cameras to webcams.

IMPROVE ACCESS

Reduce travel and save people time by making education available over video.

Video conferencing platforms powered by Logitech empower students, staff and faculty to meet and collaborate in ways they couldn't before.

REVOLUTIONIZE LEARNING

Create an adaptive strategy to reach students enrolling in higher education where video is already a big part of their daily life.

Enabling a video-first culture with Logitech is made easy via USB, plug-and-play solutions.
