ALL-IN-ONE MDR SERVICE

Don't Settle for Partial Security. Multi-Signal Matters.

At eSentire, we believe a multi-signal approach is paramount to protecting your complete attack surface. eSentire’s MDR solution means multi-signal telemetry and complete response.

Our all-in-one MDR solution ingests high-fidelity data sources from endpoint, network, log, cloud, identity, assets, and vulnerability data to enable complete attack surface visibility. Our open XDR platform provides automated blocking capabilities to prevent attackers from gaining an initial foothold while our expert Elite Threat Hunters initiate human-led threat investigation and containment at multiple levels of the attack surface.

Through host isolation, malicious network communication disruption, account-based suspensions, and other measures, we can stop the attacker at any level.

Seamless Integration and Threat Investigation Across Your Existing Tech Stack

eSentire MDR service integrates seamlessly with the existing tools and SaaS platforms in your environment to enable continuous monitoring across your hybrid footprint, ingestion of high-fidelity data sources, and 24/7 protection from sophisticated known and unknown cyber threats with proactive threat hunts. We continuously expand our multi-signal ingestion capabilities by adding new detections and runbooks for SaaS platforms and enterprise applications. When suspicious activity is detected, we stitch together context-free telemetry to identify similar attacker tactics in your environment.

Our 24/7 SOC Cyber Analysts respond on your behalf to counter threat actor Tactics, Techniques, and Procedures (TTPs) by leveraging common security infrastructure and tools (including, but not limited to):

- EDR/EPP tools
- Network security technology
- Email security platforms
- VPN providers
- Web gateway solutions

eSentire MDR is More Than Just Alerts

The World's Most Complete Threat Response Capability

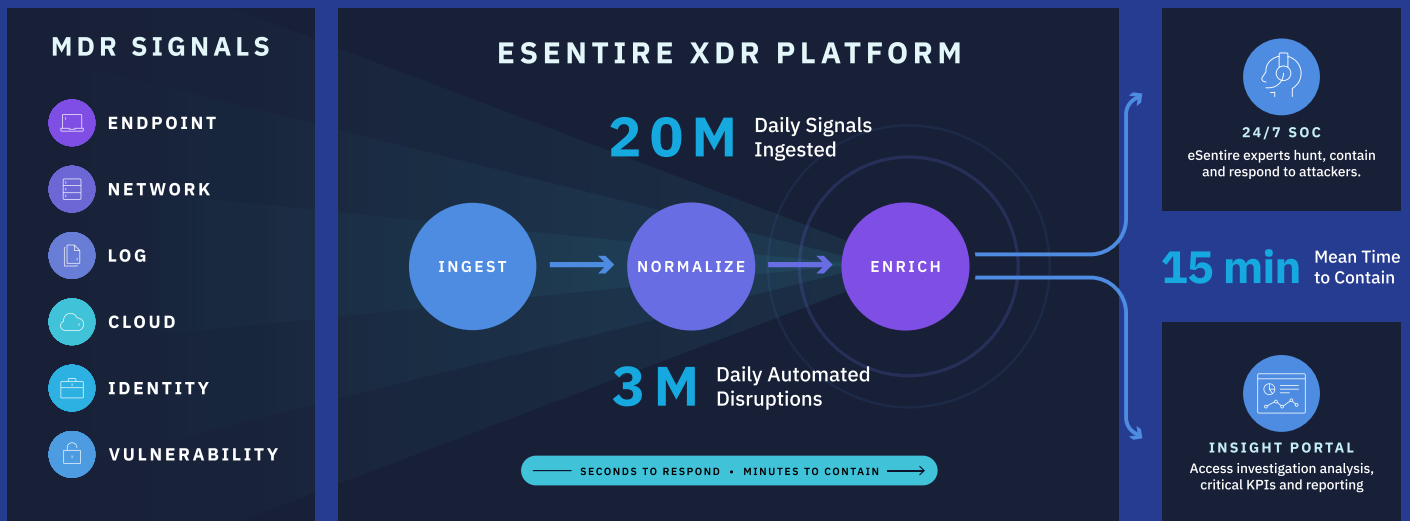

When it comes to response, it's how we do it that makes all the difference. To build a more resilient security operation, you need an MDR solution provider who has your back from Day 1.

 RESPONSE SPEED	 RESPONSE EXPERTISE	 RESPONSE COVERAGE
<p>Our eSentire XDR platform instantly detects and blocks millions of threats per day. We add 200+ IPs & IOCs per day to our block list based on positive SOC investigations.</p> <p>When human intuition is required, we are on guard 24/7 to protect you with a Mean Time to Contain of only 15 minutes.</p>	<p>We take threat response seriously by containing and remediating cyber threats on your behalf, so your business continues to run smoothly.</p> <p>Plus, majority of our customers have less than 2 in-house resources to support their security operations so eSentire becomes a trusted extension of their team.</p>	<p>Get continuous protection across your entire attack surface. Whenever and wherever a new cyber threat is detected, we'll always respond to protect you.</p> <p>Our global SOCs are home to the industry's only 24/7 threat hunters and with our unique multi-signal intelligence, you can remain confident that your defenses are always one step ahead.</p>

eSentire MDR is Powered by Our Open XDR Platform

One platform. Your complete attack surface protected.

With a Mean Time to Contain of <15 minutes, our powerful open XDR Platform ingests network, cloud, log, endpoint, and identity signals, correlating indicators of compromise to detect, respond to, and automatically disrupt threats in minutes.

Benefit from Security Network Effects with the eSentire XDR Platform

Leveraging patented machine learning models and artificial intelligence pattern recognition, our open XDR Platform learns across our global customer base and extends security network effects, so every customer benefits with each new threat detection. We add 200+ IPs and IOCs per day to our global block list based on positive SOC investigations.

The eSentire Difference

Build Resilience. Prevent Disruption.

- ✔ **Operational Leadership** - Be protected by a trusted provider recognized globally as the Authority in Managed Detection and Response.
- ✔ **Service Capability** - Get unmatched, complete threat response capabilities with a 15-min Mean Time to Contain, driven by our open XDR Platform.
