

Two screens, infinite possibilities

Introducing the new Microsoft Surface Duo 2

Surface Slim Pen 2, sold separately

Your teams don't work at a desk anymore. They work outside, on the road, at a café, at client sites. They need the freedom to access everything they need where there's no desk, no computer—just them. Microsoft Surface Duo 2 meets them where they are with two screens and the power, portability, and inspiration they need, right now.

Take a look at how the Surface Duo 2 puts more apps, meetings, email, calls, texts, and everything within lightning-fast 5G reach—everywhere, anytime, right at your side.¹

Do more with two screens

Open up a whole new level of get-it-done.

Welcome to more room

There's no more switching from app to app when you can put them side-by-side.

Unlock new levels of multitasking

Video conference while sketching, taking notes or watching a colleague's presentation.

Choose your app combos

Personalize your workspace by pairing any two apps to launch with a single tap.

Even apps collaborate better

Effortlessly slide images and text files as you work in any two apps side-by-side.

5G speed gives you power to meet the moment

Take your productivity along

Productivity tools are a tap away. From collaboration to presentation to stored data, you're always connected now.

The best Microsoft Teams mobile experience

From whiteboarding, to presentations, to sessions, Surface Duo 2 is built for full Microsoft Teams functionality.

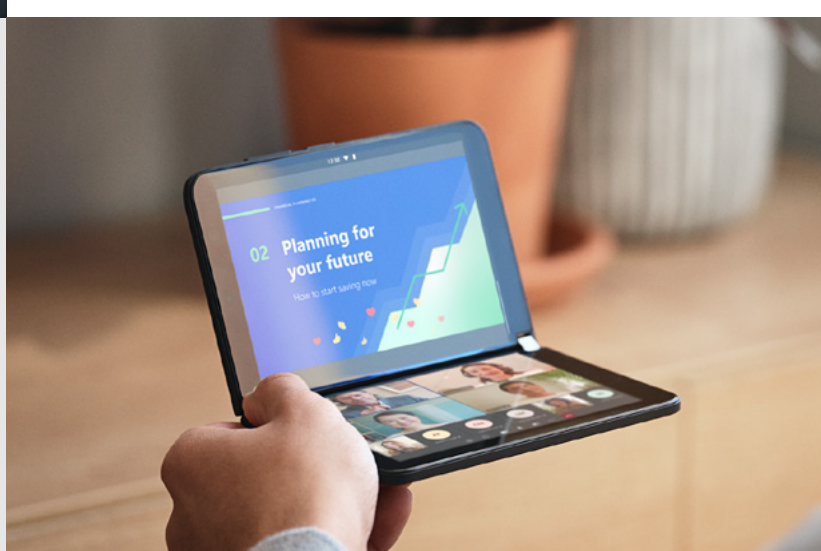

Be secure anywhere

Surface Duo 2 can be your most protected mobile device with chip-to-cloud enterprise level security built in.

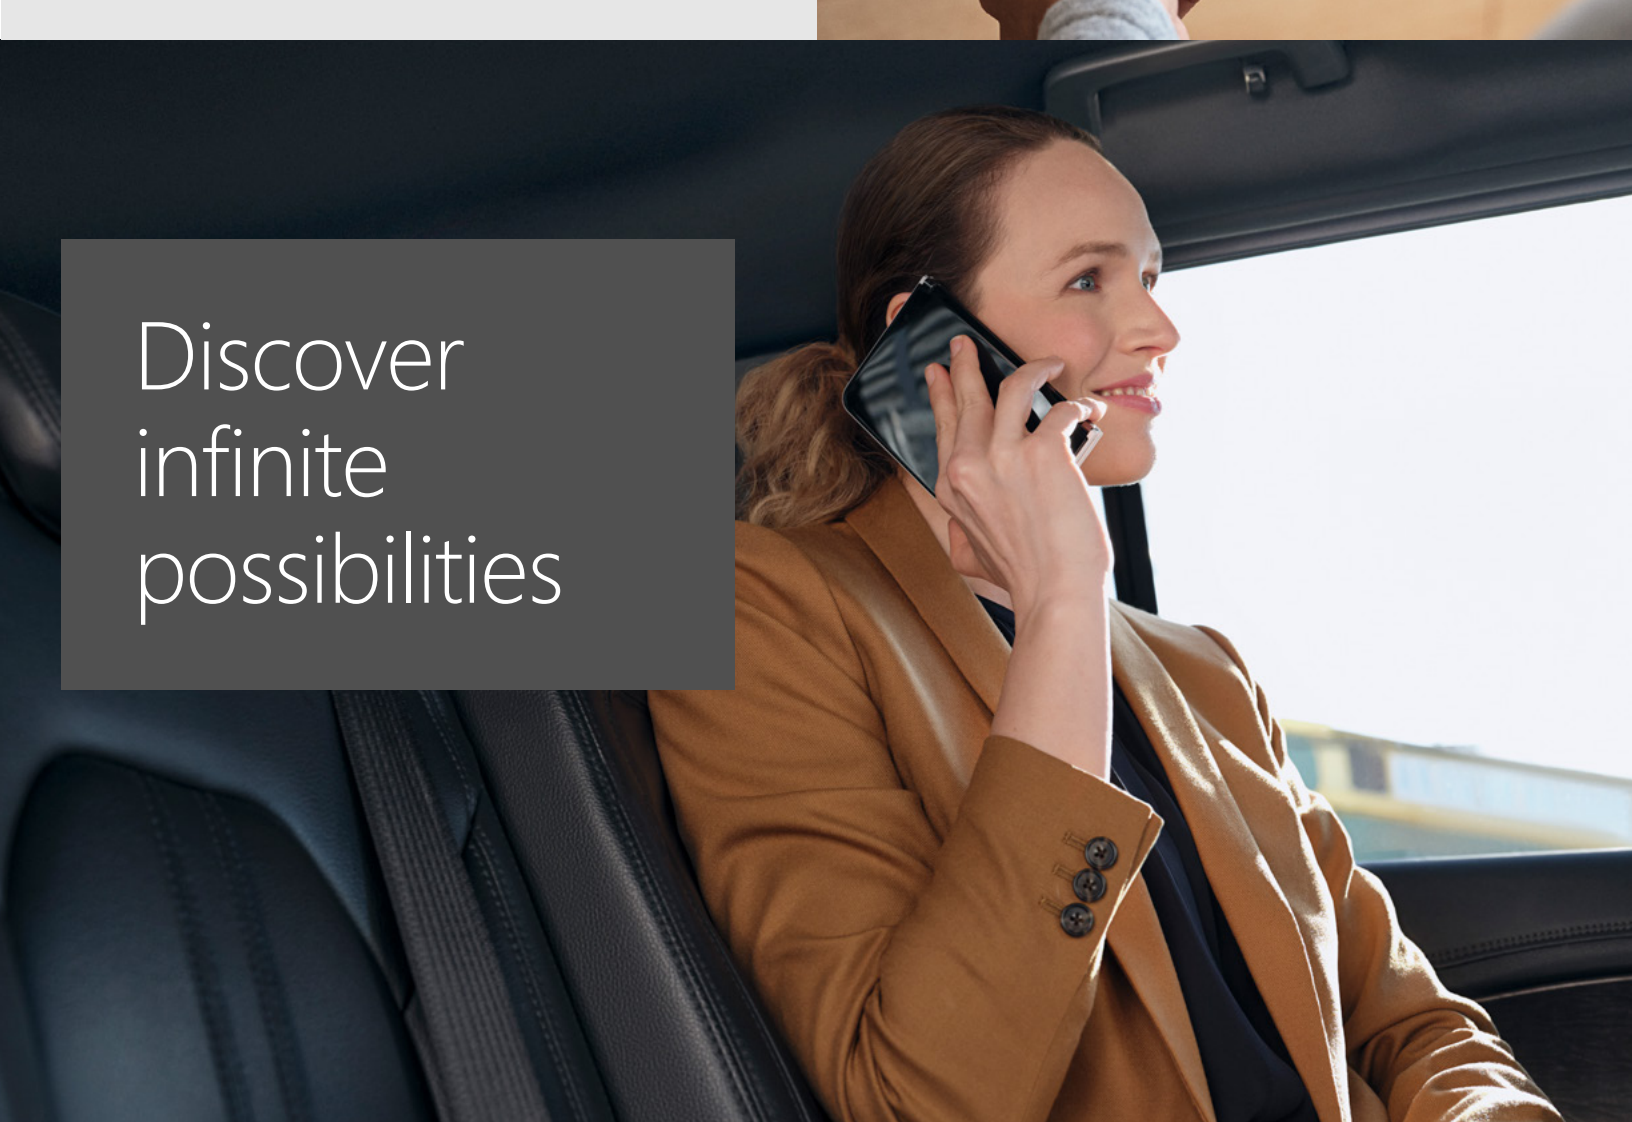

Surface Duo 2 is more than a phone

Sure, Surface Duo 2 is also a full featured smart phone with instant 5G access to calling, text, and everything your phone does—plus!¹

Discover infinite possibilities

This changes everything. Surface Duo 2 frees your people not only from the workplace, but from the work-thing. Stay in the moment while expanding the possibilities with a device that puts workplace power in your hand. Now Surface Duo 2 opens you up to the latest productivity tools, collaboration unlike any other, and access to everything you need at 5G speed.¹
