

CoverIT

Extend the life of your equipment and scale services as you need them, saving 40% on your maintenance costs each year. CloudCover provides CoverIT™, an easy to use IT lifecycle management platform and best-in-class global maintenance service delivery for aging hardware.

Save Over 40% on Your IT Maintenance

Customer Need

When clients purchase data center hardware it commonly comes with a limited 3-year warranty or maintenance contract from the OEM. **Most hardware can last 5-7 years before it needs to be refreshed.**

The Opportunity

Extend the life of your hardware by utilizing Third-Party Maintenance. **Gain better management over all of your IT assets, contracts, and budgets** with a self-serve, intelligent maintenance management platform. Explore CoverIT™.

Easily Manage All Your Maintenance

LEARN MORE

Ideal For Clients:

- Worried about high support costs
- Who don't have budget for a refresh
- With warranties / contracts > 2 years
