

A shift to hybrid work in nonprofits

The pandemic accelerated digital adoption. The most visible change is the shift to hybrid work. Empower your staff with a device portfolio that enables productivity from anywhere.

Microsoft Surface for Business offers a versatile device portfolio with industry-leading security to empower nonprofit staff and volunteers to deliver effective programs and accelerate mission outcomes.

Light, mobile, and powerful, Surface devices deliver value and a premium experience that fits the needs of personas across nonprofits, from Volunteer coordinators and volunteers to program fund managers, directors, and back-office staff.

“With Microsoft Surface, we’re providing a highly capable device, reducing down time and decreasing provisioning time with Microsoft Intune and Autopilot. Now Make-A-Wish staff and volunteers can better focus on their passion to serve wish kids across the country.”

Travis Gibson, CISM: Senior Director of Infrastructure, Security, and Operations, [Make-A-Wish America](#)

Surface devices with Windows 11 and Microsoft 365 work together to help empower nonprofit staff with:

Productivity and collaboration

Experience the best of Microsoft—Microsoft 365, Dynamics 365, Azure, Windows—on a Surface device. Surface + Microsoft Teams enable crystal clear meetings with high-end cameras, optimized microphones, and quality speakers. Digital whiteboards help corporate teams brainstorm and real-time pen and inking capabilities help store associates streamline customer experiences.

Cloud-managed devices

Enable work from anywhere while keeping control with zero-touch deployment and seamless device management. Dispersed staff just unbox and log in. Surface + Microsoft 365 gives them the freedom to work their way and protection by the best modern security and manageability platform from Microsoft.

Chip-to-cloud security

Security is built into every layer, from the supply chain to the firmware to the operating system, helping to keep data safer than ever. Surface powered by Microsoft 365 helps improve enterprise security. Secured-core PCs, available on select Surface devices, are designed to elevate the benefits of Windows 11 security.
