Harness the Power of Student Devices

Course playlists of standards-based 5E Model lessons enable social, teacher-guided learning experiences. Exploros automatically displays live progress data and produces Classroom Analytics for data-driven instruction.

Unprecedented Student Engagement

Teachers Guide the Experience Whether Face-to-Face, Remote, or Both

With Exploros, every student is an active learner, participating using social media skills. Students share graphic organizers, drawings, short essays, and more with their teacher or classmates. And students can participate whether they are in school or remote. This student voice increases each student's engagement. Teachers see student posts in realtime and also have embedded teaching tips. Teachers use this information to personalize the learning.

Streaming video option personalizes remote learning

The Teacher View of each learning experience contains embedded notes, much like a lesson plan.

The Student View contains social-media style prompts that allow each student to contribute.

A Personalized Learning Experience

With Exploros, students bring their strengths to each learning experience and learn from their peers using their native language - social media. Exploros also has numerous features for personalizing the learning experience, from differentiated reading passages and student-facing feedback to language translation and text-to-speech.

"I use Exploros every day in various ways. It allows my masters students to run and explore harder TEKS, and it helps my ESL students grasp the material more so than anything else I've ever done in the past."

- Julia Brunson, Teacher, Cisco Independent School District

Comprehensive Courses for Middle School

Teaching social studies in the device-enabled classroom has never been more engaging and impactful. Our standards-aligned learning experiences (digital lessons) cover core courses. Each full-year course is organized into units. Each unit contains a series of teacher-guided 5E Model learning experiences that take about one class period to teach.
