According to a new Forrester study, businesses that choose Surface and Microsoft 365 E5 see real impact.

86% say Microsoft 365 and Surface improves **employee satisfaction.**

75% saw **reduction in IT help desk call times** on Microsoft 365-powered Surface device deployments.

49% of survey respondents with Surface devices reported **reduced security incidents** annually, compared to only 40% of non-Surface respondents.

Based on the results of the study, Microsoft 365 on Surface provides a 170% return on investment (ROI), with a 14-month payback period and 10-hour-per-week productivity gain per user.

1 Help employees be more productive and save time

2 hours saved daily per user via improved means of collaboration such as cloud-based file sharing, real-time joint authoring, and virtual meetings.

Key device features saved an extra 1.6 hours per day.

Surface's touchscreen, faster secure log-in, and ability to run multiple apps side-by-side help improve productivity. Plus, intuitive peripherals like Surface Pen and Surface Dial help simplify daily tasks.

We saw productivity improvements of 12% to 15% average from Surface device users. Some teams experienced upwards of 20% improvement. It was amazing to see that amount of time saved each week because of Surface devices' slick interface.

– Director of corporate development, product, and GTM, enterprise IT

2 Significant IT time & cost savings due to streamlined device management

16% deployment cost reduction when deploying Surface devices straight to users with Windows Autopilot and Microsoft Endpoint Manager.

In many instances, accessories built into Surface reduced employees' needs for companion tablets, Wi-Fi hotspots and more, reducing the number of devices required for IT management.

We're saving massive amounts of time across IT, risk management, and legal on the reporting process when devices are lost.

3 Manage risk, reduce costs, and increase efficiency for IT and end users with modern device security

Reduce the number of security breaches by about 20% per year with Surface.

Save costs by rolling back use of third-party security solutions due to the combined security benefits of Microsoft 365 Enterprise and Surface devices.

We have seen a 30% to 40% reduction in security incidents needing a person dispatched thanks to using Surface devices with Microsoft 365 E5.

– CTO, professional services

4 Get employees up and running more quickly

3.25 hours less time required for application updates during device deployment.

4 hours saved on average per device in reduced IT time to provision and deploy Surface devices thanks to Windows Autopilot and Microsoft Endpoint Manager.
