 BUILT-IN WEBCAM & SPEAKERS

Ergonomic Design

Unfold. Elevate. Angled. Raised

The best posture is your next posture. Thanks to our linkage system, the Geminos is infinitely adjustable unlike other dual monitor stacked. The top monitor slides up and down, and the bottom monitor pivots in and out to create an angled visual appearance surface. With limitless angle adjustments between them, easily attain a more ergonomic viewing perspective.

Side-by-side Monitors

- ❌ Not ergonomically designed
- ❌ Doesn't create a curved surface
- ❌ Large gap between monitors
- ❌ Take a lot of space

Geminos T

- ✅ Ergonomically designed
- ✅ Creates an angled surface
- ✅ Minimal gap between monitors
- ✅ Minimal setup space
