<b>Power-saving features</b>	On head detection sensor, and Eye-on screen sensor
<b>Ruggedization</b>	Water and dust resistant
<b>Weight</b>	~46g (pod)

### Simple to develop for.

Glass Enterprise Edition 2 runs on Android Open Source Platform which makes it quick and easy to develop on.

### Excels at video and live streaming.

With an 8MP camera, Glass Enterprise Edition 2 allows workers to stream clear "point of view" video from expert remote assistants over Wi-Fi.

### Improved CPU.

Glass Enterprise Edition 2 has been improved with Qualcomm's Snapdragon XR1 which allows for better performance and support for onboard computer vision and machine learning use cases.
