

📅 April 1, 2020

HPE Integrated Lights-Out (iLO) Advanced is free to use for the rest of 2020

The global COVID-19 pandemic is an unprecedented situation that is affecting all of our families, our businesses, our communities, and our way of life. Many businesses and customers alike are faced with new challenges such as work-from-home mandates, closed offices, and inaccessible server rooms. Despite these limitations, business must adapt and continue to service customers. In these volatile times, HPE is here to support you and your business needs.

As one immediate way to help our partners and customers, we are making HPE Integrated Lights-Out (iLO) Advanced free for the rest of 2020.

hpe.com/info/iLOof2020

FREE TRIAL LICENSE OFFER

Beginning, March 31st, 2020, the HPE iLO Advanced license is free of charge, enabling iLO Advanced through December 31st, 2020. This will empower our valued partners and server administrators to manage their environments in a safe and reliable manner through HPE iLO's robust remote capabilities.
