

Because your workspace is getting smaller, but your workload isn't

HP Desktop Mini PCs offer the same multicore processing power of traditional desktops while only taking up a quarter of the space.¹

HP Desktop Mini PCs

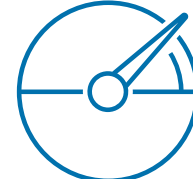

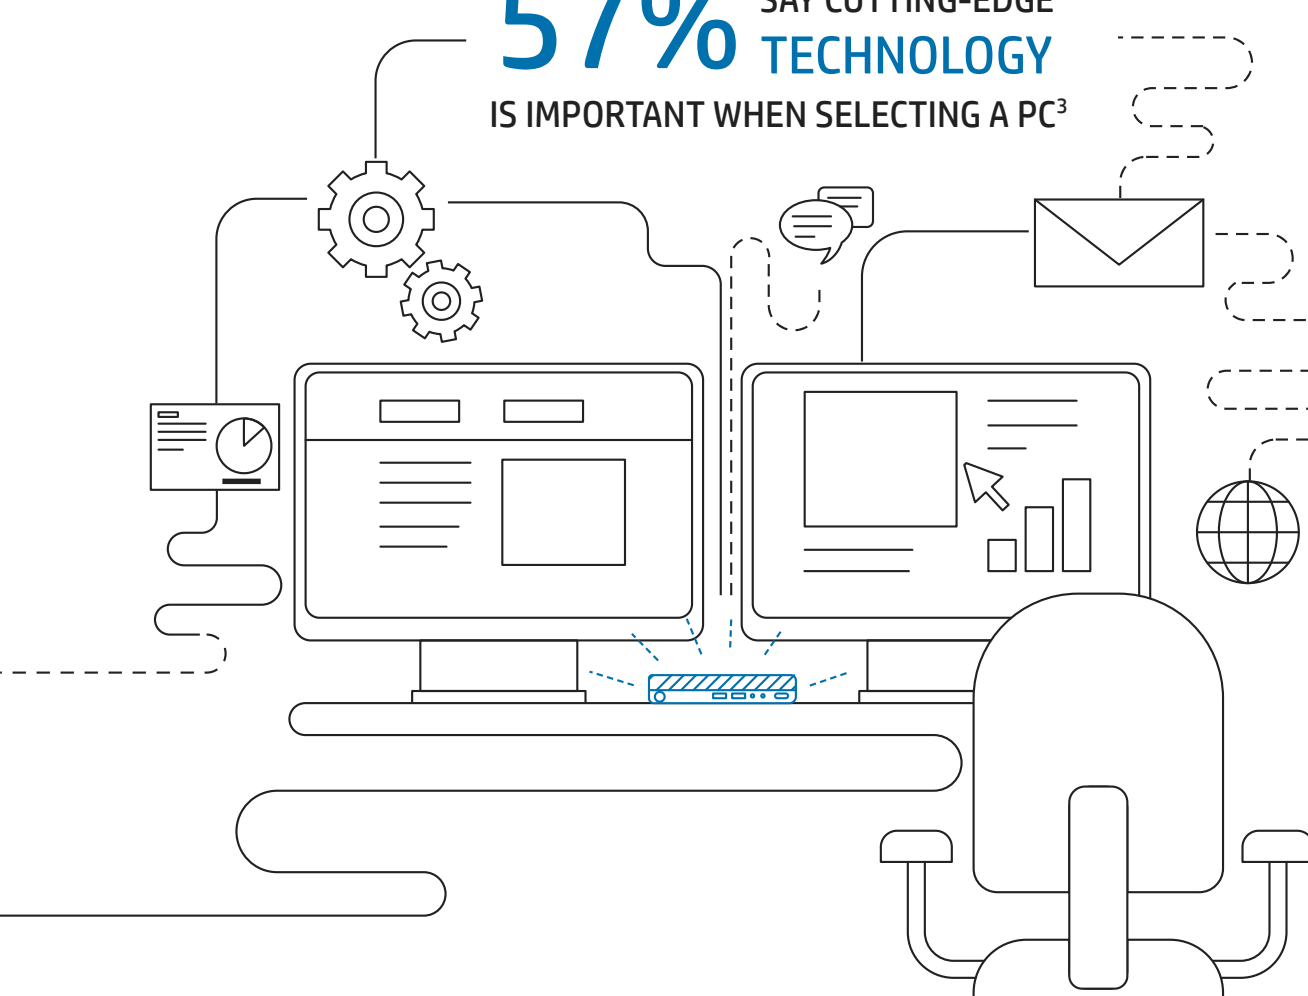

Because you don't need a large PC to do great work

In the next 12 months, the number of ultra-small-form-factor devices is expected to increase as a percentage of devices deployed, while the percentage of towers and small form factors is expected to decline.²

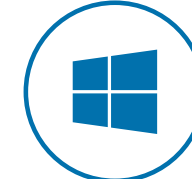

Because you need a PC with the latest technology

Don't sacrifice performance for versatility.
We fit all the power and speed you need in a mini form factor.

- HP ProDesk 400 Desktop Mini Series
- HP ProDesk 405 Desktop Mini Series
- HP ProDesk 600 Desktop Mini Series
- HP EliteDesk 705 Desktop Mini Series
- HP EliteDesk 800 Desktop Mini Series
- HP Z2 Mini Workstation Series

HP recommends Windows 10 Pro for business.

1. Based on desktop space coverage comparison of upright HP EliteDesk 705 G5 SFF and upright HP EliteDesk 705 G5 Desktop Mini. 2. HP Early Evaluation Program, WW End Users, November 2018. 3. HP, Proprietary Research with WW End Users, 2015. 4. Only supported on select series. Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application and workload and your hardware and software configurations. Intel's numbering, branding, and/or naming are not measurements of higher performance. 5. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS updates to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply, and additional requirements may apply over time for updates. See windows.com. 6. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs. Discrete graphics optional on HP EliteDesk. 7. EliteDesk 705 & 800 Desktop Mini with discrete graphics required to support up to 7 displays. 8. Only supported on models with 35W processors. For solid-state drives, 1GB = 1 billion bytes. Actual formatted capacity is less. Up to 5.1GB of disk is reserved for system recovery software. 9. IDC, 2016 Commercial Survey: PC Results, Doc # US41101516, March 2016. 10. HP Sure Start is available on select HP PCs. See product specifications for availability. 11. See product specifications for availability. 12. See product specifications for availability. Requires an open, wired network connection. Not available on platforms with multiple internal storage drives. You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data. 13. HP Sure Click is available on select HP platforms and supports Microsoft Internet Explorer, Google Chrome™, and Chromium™. Supported attachments include Microsoft Office (Word, Excel, PowerPoint) and PDF files in read-only mode, when Microsoft or Adobe Acrobat are installed. 14. HP Sure Sense requires Windows 10. See product specifications for availability. 15. HP Manageability Integration Kit can be downloaded from hp.com/go/clientmanagement. 16. HP Client Security Manager requires Windows and is available on select HP Pro and Elite PCs. See product specifications for details. 17. Sold separately or as a configurable option. 18. HP Mini-in-One 24 Display sold separately. PC must be configured with optional USB-C™ with 100W Power Delivery Card to power the PC from the monitor.
