

HP ZBook Firefly 14" G10

Step up performance. Not size.

Pro-level performance combines with true mobility in this sleek and powerful laptop. Stay productive with pro-grade components, AI-enhanced webcam, and a color-accurate display—everything you need to collaborate and manage projects from anywhere.

[LEARN MORE](#)

Work all day. Anywhere.⁶

Starting at 3.2 lbs.,⁵ our most mobile ZBook is made to move. With a long-lasting battery this sleek device is small enough to fit in your bag so you can stay productive anywhere.

Upgrade to pro-level performance

Say goodbye to lags and crashes. With up to an Intel® Core™ i7 vPro® CPU,^{1,2} NVIDIA RTX™ A500 Laptop GPU,³ and 64GB of memory,⁴ you can open files and run pro apps simultaneously.

Immerse in your work

The 16:10 HP DreamColor display⁷ with 100% DCI-P3 shows 11% more vertical content than a 16:9 aspect ratio display and delivers vivid detail and accurate color.

Connect. Communicate. Collaborate.

Collaborate effectively wherever you go with ZBook Firefly. The AI enhanced auto-framing 5MP camera⁸ and Wi-Fi 6E⁹ or 5G¹⁰ options let you seamlessly connect from almost anywhere.

Step up performance. Not size.

Disclaimers:

- Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance. Optional, configurable feature that must be configured at purchase.
- Intel vPro® requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro® Essentials and Enterprise vary. See <http://intel.com/vpro>
- Optional feature that must be configured at purchase.
- Up to 64GB memory is an optional, configurable feature.
- Lowest weight. Weight will vary by configuration.
- Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark16 battery benchmark <https://bapco.com/products/mobilemark-2016/> for additional details.
- Optional feature that must be configured at purchase.
- Requires the myHP application and Windows OS.
- Wi-Fi 6E is an optional feature that must be configured at purchase. Wi-Fi 6E requires a Wi-Fi 6E router, sold separately, to function in the 6GHz band. Availability of public wireless access points limited. Wi-Fi 6E is backwards compatible with prior 802.11 specs and available in countries where Wi-Fi 6E is supported.
- Intel® 5G module is optional and must be configured at the factory. Module designed for 5G NR NSA (non-standalone) networks as carriers deploy Evolved-Universal Terrestrial Radio Access New Radio Dual Connectivity (ENDC) with both 100MHz of 5G NR and LTE channel bandwidth, using 256QAM 4x4 as defined by 3GPP. Module requires activation and separately purchased service contract. Check with service provider for coverage and availability in your area. Data connection, upload and download speeds will vary due to network, location, environment, network conditions, and other factors. Backwards compatible to 4G LTE and 3G HSPA technologies. 5G module planned to be available in select platforms and select countries, where carrier is supported.
