

AGGRESSIVE DISCOUNTS On OfficeConnect Network Switches Designed for Small & Medium Business

If your business is growing and your Wi-Fi network needs to upgrade or expand along with it, then now's a great time to add OfficeConnect switches. OfficeConnect 1950 and 1820 switches have options for more ports, power over ethernet lines (PoE), and value. Robust security features, an intuitive web interface and logical stacking capabilities make the 1950 switch series a great solution for small-to-medium-sized businesses. These switches are also backed by an industry leading, limited lifetime warranty for added peace of mind. From now through 10/31/2021, take advantage of new lower pricing on select 24- and 48-port models.

Contact your Aruba Reseller about the new lower pricing and availability.

Features and Benefits:

- **OfficeConnect switches are compatible with Aruba Access Points** - Provides best in class performance and security at the edge of your network and business. **Aruba is an HPE Company.**
- **Flexible & Expandable** - High-level Gigabit with 10GbE Networking for Advanced Small Businesses. Each model of the HPE 1950 Switch Series includes four 10GbE connections to connect to servers, network storage devices, or to other switches
- **Simplified Network Administration** - "Stack" as many as four units of the 1950 Switch Series and manage this as a single entity, greatly simplifying network administration. Use the intuitive web-browser based interface to configure and administer these smart-managed devices.
- **Robust Security to Protect Your Network** - The 1950 Switch Series lets you use Virtual LANs and access control lists to set bounds on what data can be seen by which users. Multiple features guard your network from user or server spoofing and from malicious network-based attacks.
- **More Options - OfficeConnect 1820 switches** offer flexibility for smaller organizations that require ease of use and lower Total Cost of Ownership (TCO), while delivering better network performance. They are smart-managed, fixed configuration, Gigabit Ethernet Layer 2 switches in an easy-to-administer solution that have the latest energy-saving capabilities. These switches are plug-and-play out of the box and come with a limited lifetime warranty.

Model	Description
