HSM SECURIO Document Shredders – Office | Large Office

Excellent environmental consideration! Low energy consumption, durable design and the avoidance of materials that are harmful to the environment characterize HSM shredders. These were the reasons for awarding the HSM document shredders with the Blue Angel certification.

HSM Warehouse Management Solutions (WMS)

HSM Warehouse Management Solutions offer a range of innovative and practical machines; all designed to reduce costs, be environmentally friendly and conserve precious warehouse space in the process.

Industrial Shredders + Shredder Baler Combinations

The robust technology of these devices is specifically designed for large throughput and long total operating time. As a top model, the HSM Powerline FA 500.3 processes bound documents and folders with up to 550 sheets per cycle. The powerful large devices are perfect for large archives or as a central station for document shredding.

Shredder-baler combinations – complete, compact disposal stations. Shredding at a security level up to P-5, they press the shredded material into handy bales that can be removed easily. The HSM Shredder Baler Combinations are suitable for destruction of large volumes and professional document shredding.

HSM Security Level according to ISO/IEC 21964 (DIN 66399)

For Paper

Security Level P-1
Typically Strip-Cut, Used for General documents to be rendered illegible and/or destroyed, i.e. old advertising materials such as catalogs, brochures and junk mail.

Security Level P-2
Typically Strip-Cut, Used for Internal documents to be rendered illegible and/or destroyed, i.e. internal company communications, such as out-of-date memos, general email correspondence, travel guidelines, notices, forms, etc.

Security Level P-3
Strip-Cut or Large Cross-Cut, Used for Printed and Digital Media with Sensitive and confidential data as well as personal data subject to high protection requirements, i.e. company sales reports, personal documents as well as quotes, orders, etc. with private address data.

Security Level P-4
Cross-Cut, Used for Printed and Digital Media with Sensitive and confidential data as well as personal data subject to high protection requirements, i.e. balances and conditions as well as paystubs, bank statements, tax documents, work contracts, medical reports/records, etc.

Security Level P-5
Micro-Cut, Used for Printed and Digital Media with Confidential data of fundamental importance for a person, company or institution, i.e. patents, construction documents, strategic papers, business plans, competitor analysis, process documentation.

Security Level P-6
High Security (meets the Canadian government/RCMP destruction standard) Used for Printed and Digital Media with Confidential documentation in the case of extraordinary security precautions i.e. research and development documents, official areas, etc.
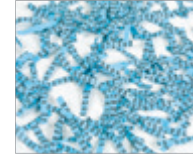

Security Level P-7
High Security (meets the NSA Document destruction standard) For strictly confidential data with the highest security precautions. Primarily used by the US governmental agencies in all sectors for data destruction, i.e. the Secret Service, all military sectors, etc.
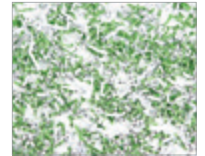

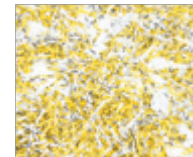

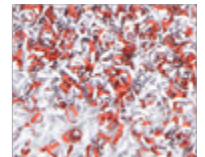

Security Level P-1

HSM Premium Quality and Innovative Features

Made in Germany
- All HSM SECURIO, Classic, Powerline and StoreEx models
- Precision engineering
- TAA compliant

Lifetime Warranty on Solid Steel Cutting Cylinders
- Higher cutting capacity
- Lower power requirements

shredstar Lifetime Warranty on Cutting Rollers
- Superior cutting cylinder design
- Maintains high cutting capacities while using less energy

Continuous Duty Motors
- Allows for continual shredding with no down time
- Longer run time = reduced labor cost
- Increases productivity

Comprehensive Safety System
- UL approved and CE certified
- Up to 10 points of protection to ensure safe operation for both operator and shredder

Quiet Operation
- Engineered to reduce decibel levels when running or idol

Anti-Jam Technology
- Prevents jams when machine is overloaded
- Increases productivity
- Saves unanticipated repair costs

Solid Steel Cutting Heads
- Cutting heads are manufactured from 100 % solid steel
- Maintains high cutting capacities while using less energy

High Security Solutions
- Meets DOD and NSA/CSS 02-01 & 04-02 mandatory security requirements
- EPL listed to ensure that sensitive documents are destroyed at the highest security level

TAA Compliant
- Follows the guidelines put forth in the Trade Agreements Act
- Indicates products were either made in USA or free-trade friendly country

Energy Managment Control Systems
- Reduces power consumption by up to as much as 90 %
- Energy saving designed drives and control units
- Reduces operating costs
- Save 90 % on power usage (SECURIO line only)
- Zero Energy stand-by
- Particularly low power consumption of 0.1 watt in stand-by mode with EcoSmart feature

Since 1971, HSM has been pursuing a clear strategy – a consistent commitment to quality Made in Germany.

This product and service quality is the key to success in both the office technology and environmental technology business sectors. As a specialist for products and services for data protection as well as technologies for optimizing logistics and recycling processes, HSM is one of the world's leading providers.
