

# HEAR WHY YOUR PEERS ARE MODERNIZING WITH HPE COMPUTE

“Why do you  
use HPE ProLiant  
servers?”

1

## RELIABILITY

“I have been using HPE ProLiant for many, many years and have rarely had an issue that could not be resolved.”

—Dave Hausmann,  
BSIT/ISS Associate Information Officer, Su Clinica<sup>1</sup>

2

## SUPPORT

“When we had a part die, a replacement was sent with a tech to replace it by the next morning.”

—Sean Wolsey,  
Independent Contractor, SnS IT<sup>1</sup>

3

## VALUE

“Standardizing on HPE ProLiant servers has...allowed us to spend more time on selling and less on support.”

—Marco Iannetta,  
IT Professional, MAI Computing<sup>2</sup>

4

## LOYALTY

“We have been relying on HPE ProLiant Solutions for 20+ years and no reason to change.”

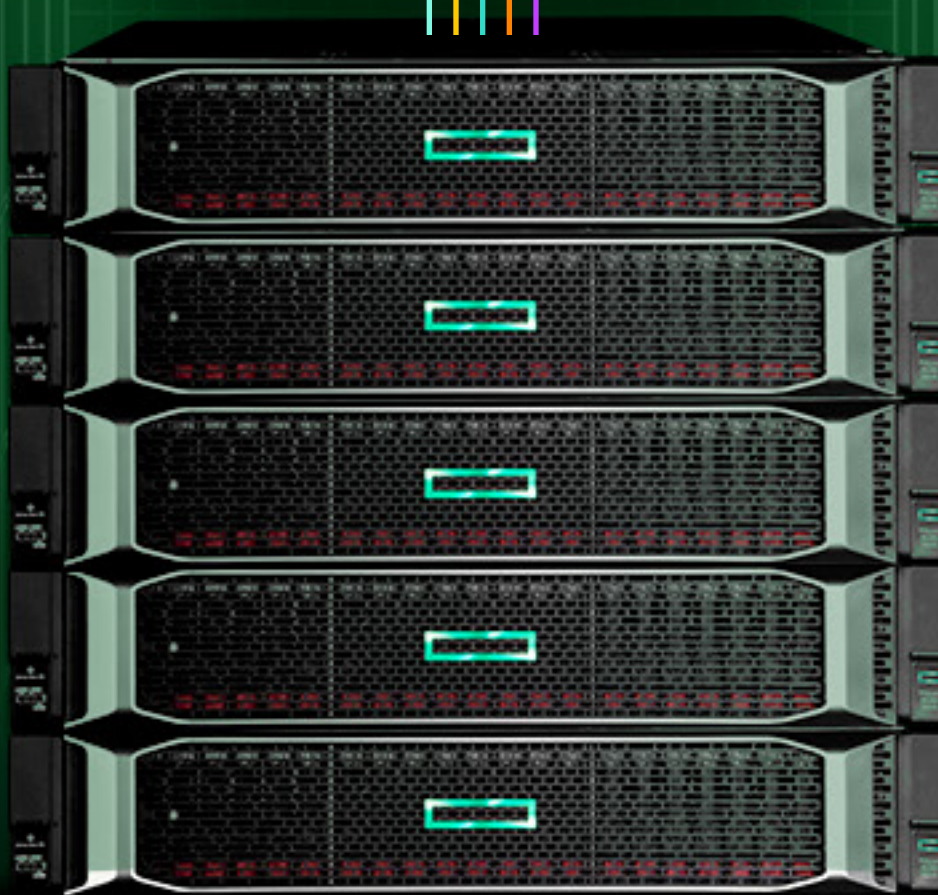

—Brian McNutt,  
System Administrator, Moore Ingram  
Johnson & Steele, LLP<sup>2</sup>

5

## MANAGEABILITY

“HPE ProLiant servers are a shoo-in because they are easy to install/upgrade.”

—Thomas Latimer,  
Owner/Chief Consultant, Precision  
Computer Systems<sup>2</sup>
