

As an internationally renowned Health & Wellness brand and the industry leader in sustainability, Humanscale offers peerless ergonomic solutions for your team that are eco-friendly and equally comfortable in office or WFH settings.

Our ergonomic monitor arms and mounts clear up clutter in the workspace to improve comfort, health, and productivity. All are also certified Net Positive, meaning any time one is produced, the Earth is measurably better off. Beyond wellness and beyond sustainability, the full line delivers a positive impact on both people and planet.

Humanscale monitor arms encourage a better working posture, create more usable desktop space, and help maintain a clutter-free environment. Our arms offer quick, simple installation and industry-leading flexibility thanks to Quick Release joints that instantly snap together and are fully compatible with both traditional desks and sit/stand workstations.
