

CAMPUS LIVING GOES WELL BEYOND THE DORM

Student housing focuses on comfort and the amenities that rival quality apartment living.

Small cramped dorm rooms are a thing of the past. Today, student housing has evolved into quality apartment-style living. Students now have access to amenities like individual housing, large common areas, fitness centers and swimming pools, all in a secure setting.

LARGE COMMON AREAS

Large common areas, such as gathering centers, will benefit from the brightness of a Fine-Pitch Direct View LED, while game rooms can take full advantage of an Ultra Stretch Screen featuring a 58:9 Aspect Ratio, UHD 4K Resolution, and up to 4 Picture-by-Picture capability. Residents will become immersed in theaters that present movies on a breathtaking LG OLED Wallpaper Display, with stunning color reproduction and virtually limitless contrast.

IN-UNIT VIEWING OPTIONS

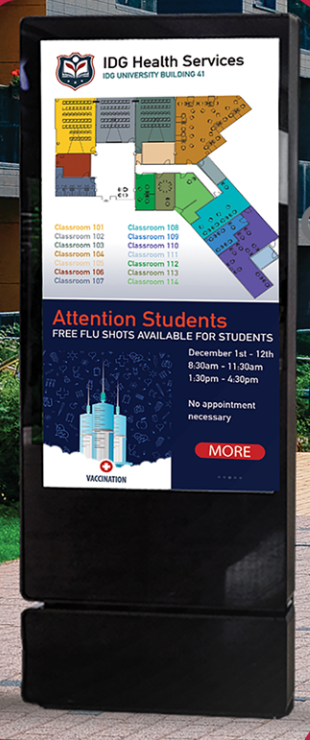

In-unit viewing options include Commercial Lite Guestroom TVs and the more advanced 55" Premium Smart IPTVs with Embedded b-LAN™. Residents will appreciate the advanced 4K UHD displays with LG's IPS panels that deliver brilliant images, wide viewing-angles, and vivid color reproduction. They'll also appreciate how LG displays seamlessly integrate into the environment.

FITNESS CENTERS

Fitness centers equipped with a virtually seamless Ultra Narrow Bezel Video Wall can deliver exciting workout videos 24/7; perfect for early risers and night owls. Featuring a bezel of less than 0.44mm thin, these displays produce a video wall that delivers stunning, distortion-free images for an amazing, immersive viewing experience.

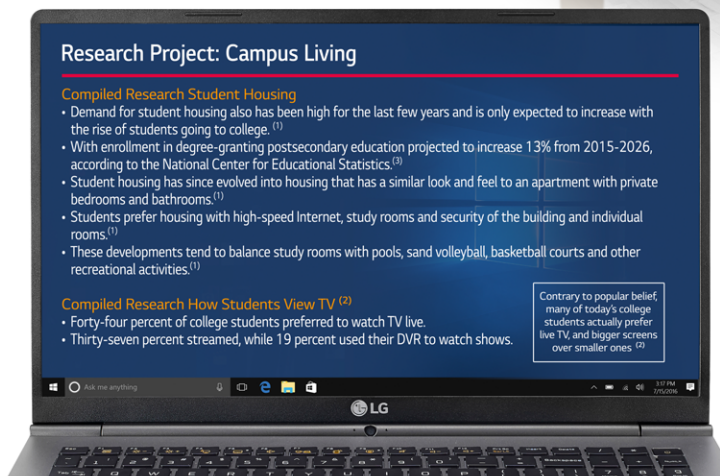

OUTSIDE THE RESIDENCE

Outside the residence, outdoor displays keep students and pedestrians up-to-date and are perfect for campus wayfinding. Their high-brightness, high-resolution and durable design ensure crisp images and reliability.

LG Commercial Displays are designed to provide outstanding performance. Customized solutions and features, like webOS® and System-On-Chip, can simplify installation while advanced IPS panels yield exceptional brightness and color reproduction with lower power consumption. Founded on four key pillars: Superior Display Quality, Practical Design, Reliability and Low Total Cost of Operation, LG is your total solution source for advanced commercial displays.
