

Mobilize Your Workforce Without Skipping a Beat

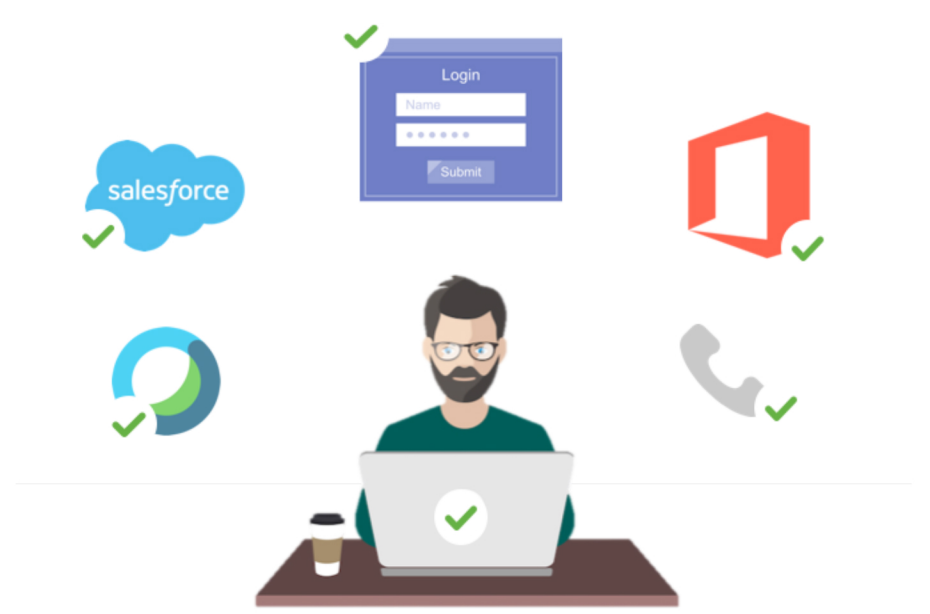

Challenges to Ideal Remote Working

- Zero onsite IT/network staff
- Variable connectivity
- Constricted access to corporate resources
- SaaS application performance
- No access to VoIP telephony
- Consumer-grade network security
- Limited access to IT support
- Visibility for IT team

Ideal Remote Working Requirements

- Office-like performance across all areas
- Login experiences the same as at the office
- Secure access to corporate resources
 - Email
 - Intranet
 - Corp services (HR, expenses etc.)
 - Custom applications
 - SaaS applications
 - Etc.
- VoIP access
- Access to IT support

The same experience as being at the office
