

# HPE INFOSIGHT: TRANSFORM THE DATA CENTER WITH AI-DRIVEN OPERATIONS

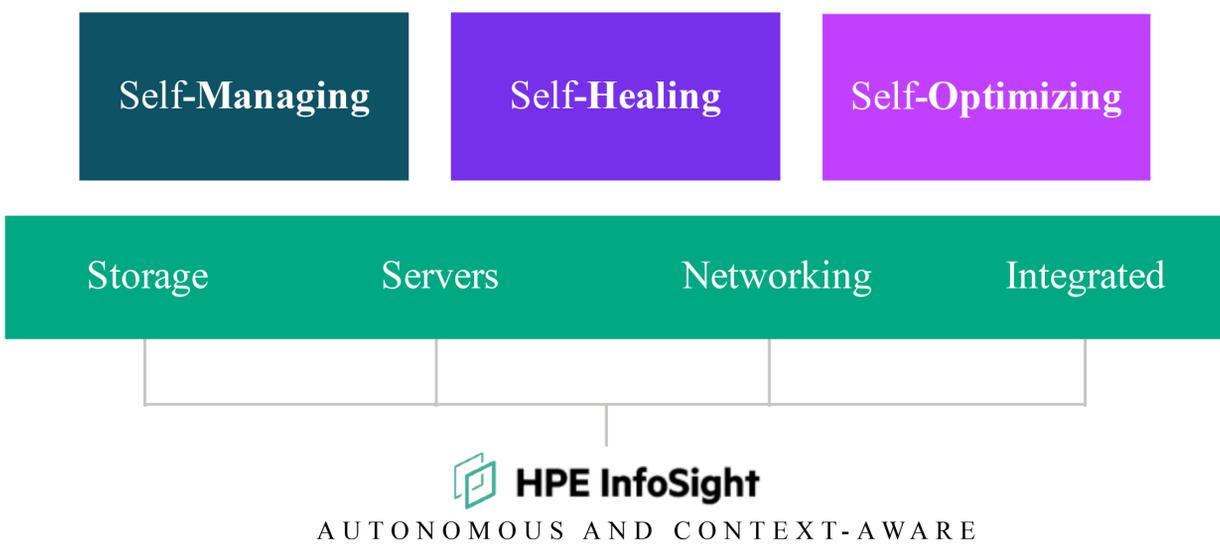

## TODAY'S REALITY FOR IT

<p><b>Infrastructure complexity</b> requiring hands-on attention and manual tuning</p>	<p><b>Never-ending fire fighting</b> searching for the needle in the haystack</p>
<p><b>Pressure to lower cost</b> requiring optimal resource and human efficiency</p>	<p><b>Pressure to do more</b> supporting traditional and modern apps</p>

## INTELLIGENCE IS KEY FOR INFRASTRUCTURE MANAGEMENT

## AI FOR AUTONOMOUS INFRASTRUCTURE

## HPE INFOSIGHT: INDUSTRY'S MOST ADVANCED AI FOR INFRASTRUCTURE

<b>Differentiated Impact</b>		
Predictive Support	AI-Driven Operations	Intelligent Infrastructure
<b>Cloud-Based Platform</b>		
Predictive Analytics Engine	Global Learning	Recommendation Engine
<b>Cross-Stack Telemetry</b>		
vmware    Hyper-V		
Storage	Compute	HCI/dHCI

## INTELLIGENCE CHANGES EVERYTHING

<p><b>Transformed experience</b> <b>86%</b> Issues Predicted and Prevented</p>
<p><b>Effortless management</b> <b>79%</b> Lower Storage Operational Expenses</p>
<p><b>Autonomous and self-improving</b> <b>99.9999%</b> Proven Measured Availability</p>
