

Public Safety Trust Cradlepoint

Public Safety Organizations Across the U.S.
Connect & Serve by Leveraging Cradlepoint
Solutions & LTE Wireless Networks

Whether in the field or in the station, emergency responders need to remain connected at all times. Cradlepoint's cloud-managed LTE network solutions are used by first responder and secondary responder agencies in every U.S. state. These solutions provide mission-critical connectivity for vehicles, mobile command centers, surveillance cameras, incident response teams, body-worn devices, and more.

And with support from dedicated nationwide public safety networks, agencies can connect beyond the crowds — keeping responders always connected during the most extreme emergencies.

3,000+
agencies

use Cradlepoint solutions to increase responder efficiency, while keeping citizens & responders safer.

70%

of police departments in the
**10 most populated
U.S. cities**
use Cradlepoint solutions.

...With a Cradlepoint router secured in each trunk, officers know that when they get into their cruiser, they will be connected – end of story.”

Sharon Jensen, IT Manager of Planning and Analysis, Boise Police Department

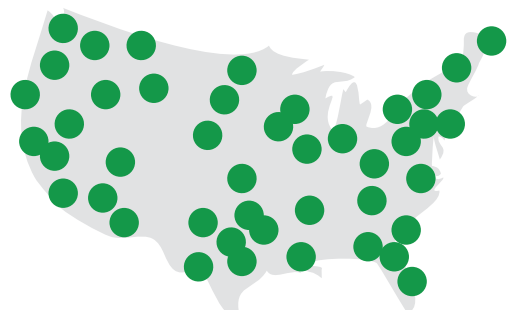

4 OF 5

fire departments in the
most populated U.S. cities
use Cradlepoint solutions.

**100% of the
10 most
populated
cities**
use Cradlepoint solutions.

**EMS teams in
all 50 states**

& the District of Columbia
use Cradlepoint solutions for
network connectivity.
