Rugged credentials

Features	What they mean	Business value
MIL-STD-810H[1]	Went through 23 unique tests	Stand up to rigors of frontline work
IP68 compliant[2]	Water-resistant up to 1.5 m for 30 minutes[3]	Best-in-class tablet with a sleek and highly durable design
Anti-shock	Withstand drops from 1.5 m (with cover) or 1.2 m (without cover[4])	

1. These devices passed military specification (MIL-STD-810G/H) testing against a subset of 21 specific environmental conditions, including temperature, dust, shock/vibration, and low pressure/high altitude. Real world usage varies from the specific environmental conditions used in MIL-STD-810G/H testing. Samsung does not guarantee device performance in all extreme conditions. Please see the Knox Quick Sales Guide.
2. Add footnoted disclaimer: "P68 Rating: Water resistant in up to 5 feet of water for up to 30 minutes. Rinse residue/dry after wet.
3. 1.5M drop is only tested with case on, without case the device itself can withstand a drop from 1.2M.
4. External Form factor has remained the same but buttons and port positions have shifted once older models – please refer to diagrams online prior to purchase to confirm they will be compatible with previous cases.

Secure: Knox security

Knox security is built from the chip up.

Customers can control and customize devices.

Regular updates ensure ongoing security.*

- Container
- Management Framework
- SE for Android
- Runtime Protection and Encryption
- TrustZone-based Integrity Measurement Architecture
- Hardware Root of Trust
