Galaxy Tab Active Pro Features

Purpose Built Device

10.1" Form Factor, Enhanced Touch

Tackle any situation easily with the field-ready 10.1" Tab Active Pro. Jot down worksite comments, view pictures in high resolution and review floor plans clearly and with ease – all while keeping your gloves on. With Enhanced Touch and Glove Touch capability, Tab Active Pro will react to you and your conditions, and not the other way around.

Purpose Built Device

MIL STD810G and IP68-Rated (Device + S Pen)

The Tab Active Pro was subjected to **21 rigorous** tests for MIL-STD 810G certification, and the Galaxy Tab Active Pro passed them all.

With an IP68 Rating, the Galaxy Tab Active Pro is water- and dust-resistant, so you can use it worry-free, anywhere. It can even survive for a half-hour in five-foot-deep water, and keep right on working

Seamless Workflow

DeX Powerful Desktop-Like Experience

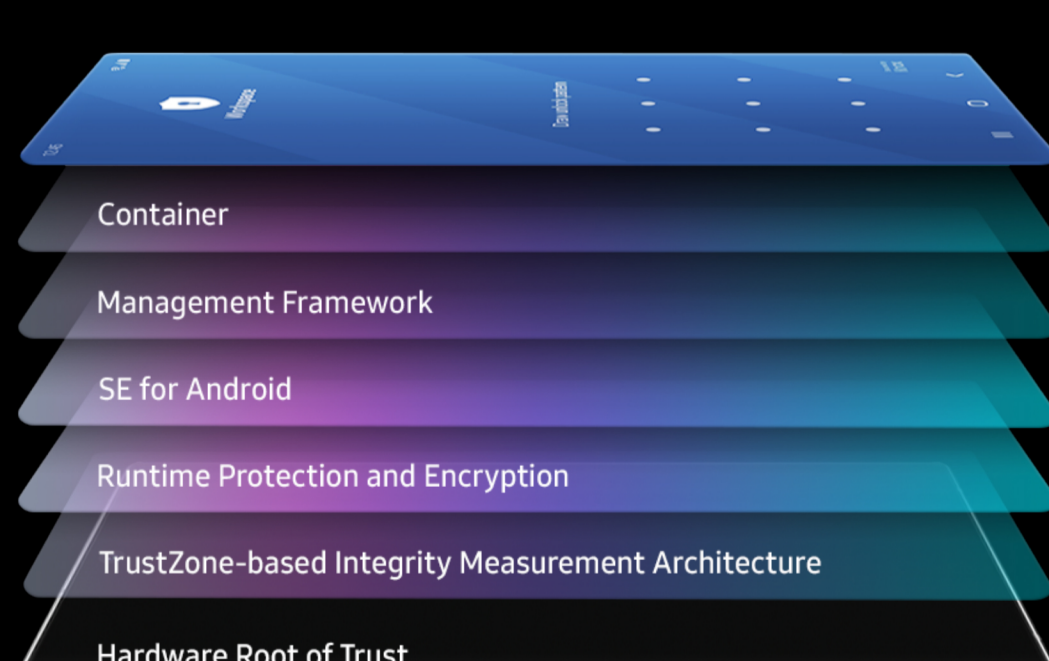

Samsung DeX* lets your team make anyplace a workspace. It's an entire PC that you can carry around easily, with the ability to effortlessly toggle between apps and stay connected, while accessing data regardless of proximity in and out of worksites. Simply attach the optional keyboard cover, and DeX immediately transforms the Tab Active Pro into a powerful desktop-like experience.

Compliant and Secure

Knox Services

Knox Platform for Enterprise, Knox Manage, Knox Configure and Knox Mobile Enrollment are cloud-based services that let you enroll, update and provision devices with ease.
