Get more done. Without sacrifice.

## Galaxy XCover Pro

Get more done. Without sacrifice.

- 1 The confidence to work any place, any time.**  
Feel confident tackling any job, in any place, in any condition. Full military grade design.
- 2 The ability to do more with a single device.**  
Built for the future of work. No trade offs between cutting edge productivity and performance.
- 3 The protection required with the freedom to customize.**  
Secure from the chip up yet open to enable a rich partner ecosystem for management, accessories and services.

## Galaxy XCover Pro Features

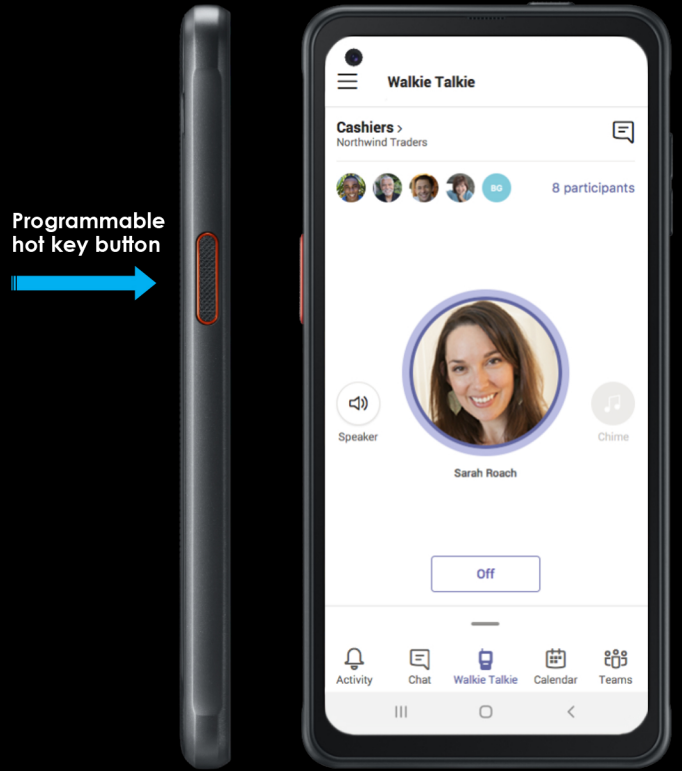

## Walkie Talkie in Teams meets the Samsung Galaxy XCover Pro

Instantly communicate and collaborate with a single device

**Rely on durability built with purpose**  
XCover Pro's military grade design is debris and water resistant; includes a removable long-lasting battery and enhanced touch capability that easily works with gloves on.

**Communicate instantly, even with low bandwidth connections**  
With the press of a programmable hotkey button, Firstline Workers can easily connect even in limited bandwidth areas from anywhere.

**Carry one secure device**  
Secured by the Knox platform, Samsung's third-party partner ecosystem and Microsoft's guarantee of enterprise-grade cloud security, the XCover Pro is an all-in-one solution across industries.

**Samsung takes the efficiency further with the programmable hot key button. When the screen is off, the side button can be pressed and held to transmit messages, saving battery life and allowing quick communication without unlocking the phone.**

Programmable hot key button
