

# Accessories certified for Microsoft Teams

Stay connected

## Welcome to the world of hybrid work

Our new normal brings benefits, but also challenges

Teams need flexible, productive, and secure work-from-home options

Evolving calling scenarios require modern solutions and legacy features

Added digital and real-life distractions inhibit meeting productivity

People struggle to feel connected to colleagues

## Microsoft Teams

Accomplish more together

**Chat**  
Share your status, your opinion, and your personality in group chats or one-to-one messages

**Meet**  
Teams of two or 10,000 can meet in one place, no matter how many locations they're in

**Call**  
Make and receive calls with internal and external groups across systems and services

**Collaborate**  
Easily find, share, and edit files in real time using familiar Microsoft 365 apps

## Accessories certified for Microsoft Teams

Optimized for Teams, designed for you

**Quality**  
High-quality audio, video, and sharing experiences on any device, in any space

**Rigorously tested**  
Tested to meet Teams certification standards so that meetings just work

**Rich integration**  
Built to plug-and-play with integrated call controls, a dedicated Teams Button, and LED indicators

Accessories not to scale
