## Natively integrated AI

[Learn more ↗](#)

A choice of AI agents, integrated or connected via [ACP](#) ↗

The latest AI models or your own local ones

**Next edit suggestions and unlimited code completion**  
Fast, accurate code suggestions as you type, powered by deep IDE intelligence.

**Transparent AI costs without vendor lock-in**  
Use a JetBrains AI subscription or connect your own provider with **Bring Your Own Key (BYOK)**.

\* Junie is currently not available in DataGrip and doesn't work with the SQL and Databases plugin.

## Why choose JetBrains IDEs?

### Tailored to your stack

Choose from IDEs that are purpose-built for specific languages and frameworks, ensuring your team works with the best-fitting tools.

### A unified experience

All JetBrains IDEs share a unified interface and workflow, reducing onboarding time and simplifying cross-team collaboration.

### Enterprise-ready tooling

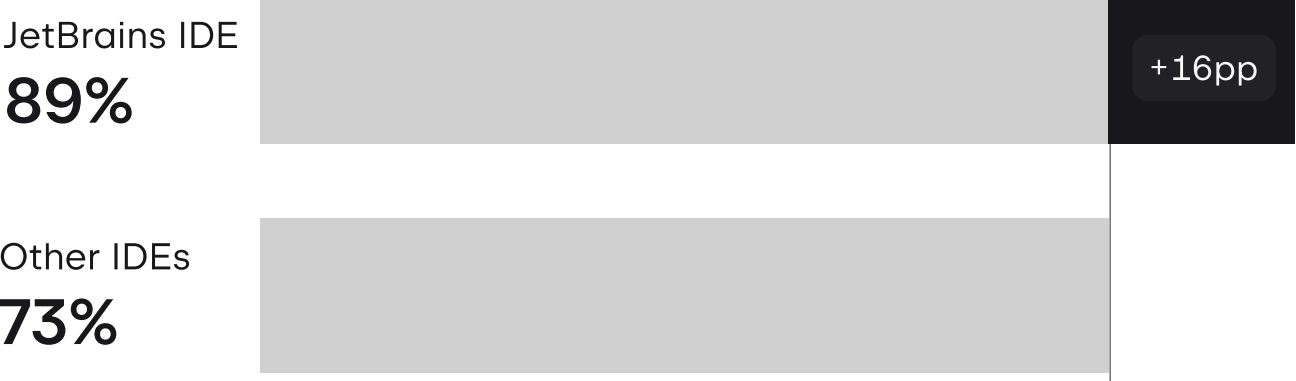

Each IDE includes integrated debuggers, test runners, version control, and database tools – no plugins needed.

# What sets JetBrains apart?

## Noticeably higher productivity

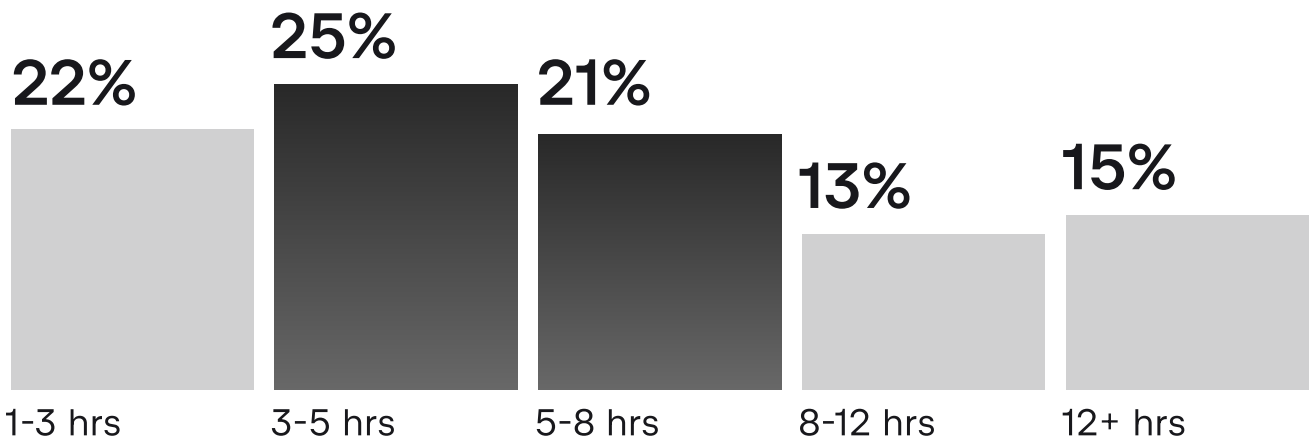

Source: ↗

89% of JetBrains IDE users say their productivity is highly influenced by their IDE, compared to 76% reported by users of other IDEs or editors.

## Even higher productivity with AI

Junie, the AI coding agent by JetBrains, helps your team move faster. Almost **half of developers save 3–8 hours a week** with Junie, and some **gain over 12 hours** – meaning features are delivered faster.

## Security and compliance

JetBrains tools adhere to industry-leading security standards, including SOC 2 certification.
