

# Make complex projects flow smoothly while keeping your files safe

Streamline collaboration with enhanced features that let you preview, manage, and deliver large files and projects from anywhere.

Dropbox helps teams get more done, faster, while robust content controls safeguard your intellectual property.

## Dropbox Advanced

Request and share large files securely, speed up collaboration with team folders, and never run out of space. Access, preview, and edit files without having to download—even if you don't have the source application. [dropbox.com/business](https://dropbox.com/business)

## Secure Transfer

Send important files and folders of up to 250GB quickly and securely to anyone. Share finished projects without the limits of email attachments. Control access with passwords and expiration dates. [dropbox.com/features/share/file-transfer](https://dropbox.com/features/share/file-transfer)

## Creative Tools

Easily share, manage, and collaborate on large image, audio, and video files. Preview files of up to 150GB without downloading, add frame-accurate commenting on video files, and share password-protected links and set expiration dates. ## Extended 1-Click File Recovery & Backup

Support long-term projects with lots of collaborators and multiple iterations. Back up content for up to 10 years, and know prior versions are saved in case someone changes or deletes content. [dropbox.com/enterprise/extended-version-history](https://dropbox.com/enterprise/extended-version-history)
