# ABOUT LOGI BOLT

## ENGINEERED FOR ENTERPRISE NEEDS

**ROBUST SIGNAL**

**GREAT COMPATIBILITY**

**SECURE CONNECTIONS  
ONLY MODE**

# WHY LOGI BOLT MATTERS

2021

"The future of work has arrived and there is no turning back."

—McKinsey & Company

As COVID-19 has led **90 PERCENT** of companies to adopt a WFH policy,

at least

**50%**

of employees will continue to work from home **AT LEAST TWO DAYS** a week<sup>1</sup>.

So, IT Decision Makers are now **TWICE AS LIKELY** to issue laptops versus desktop computers<sup>1</sup>.

With the hybrid work model comes increased security concern among ITDMs as indicated by an increase in importance of "secure wireless" in their computer peripheral evaluation criteria<sup>1</sup>.

<sup>1</sup>Logitech proprietary research, in-field Jul-2020 in China, Germany, U.S. among enterprise IT decision makers, n=804.

# LOGI BOLT TECHNICAL VALUE PROPOSITIONS

## NOW STANDARD WITH LOGITECH FOR BUSINESS DEVICES

All Logi Bolt devices come paired with a Logi Bolt receiver for plug-and-play convenience. Users simply plug the Logi Bolt USB receiver in, power on their Logitech keyboard or mouse, and they're ready to go.

## FORTIFIED SECURITY

Logi Bolt was engineered to meet rising security expectations. It is a wireless protocol that combines *Bluetooth*® Low Energy wireless technology Security Mode 1, Security Level 4, sometimes called Federal Information Processing Standards (FIPS) Mode, with additional Logitech security features designed to reduce vulnerability when devices are paired to a Logi Bolt USB receiver.

## NEAR-UNIVERSAL OS COMPATIBILITY

Logi Bolt works with just about every operating system and platform including—but not limited to—Windows®, macOS®, Linux®<sup>3</sup>, Chrome OS™<sup>3</sup>, Android™<sup>4</sup>, iOS®<sup>4</sup> and iPadOS®. In fact, Logi Bolt devices are more universally compatible than most leading peripheral brands on the market.

Logitech ERGO K860 Ergonomic Split Keyboard for Business and  
M575 Trackball Mouse for Business

## ROBUST CONNECTIONS

Logi Bolt USB receivers provide a strong, reliable, drop off free connection up to 10 meters (33 feet)<sup>1</sup> even in congested wireless environments—with a lower average latency than other commonly deployed wireless protocols for enterprise.<sup>2</sup>

## PAIR UP TO 6 LOGI BOLT DEVICES

End users can pair up to six Logi Bolt devices to one USB receiver—with an encrypted, fully authenticated connection that stays strong in even highly congested wireless environments.

With two connection options—Logi Bolt USB receiver or *Bluetooth*® Low Energy wireless technology—Logi Bolt wireless mice and keyboards are perfect for mixed OS environments comprising desktops, laptops, tablets, and smartphones.

## LEVEL UP ON SECURITY, PERFORMANCE, AND COMPATIBILITY WITH LOGI BOLT

## LOGI BOLT BUSINESS VALUE PROPOSITIONS

Logitech ERGO M575 Mouse for Business

# LOGITECH ADAPTER USB-C TO A

CONNECTOR ADAPTER

MFG P/N: 956-000028

## IDEAL FOR

Users and others who need to adapt from a USB-C connection to USB-A.

## PRODUCT BENEFITS

- Quick connection modification without cables
- Allows use of Logi Bolt USB receiver over *Bluetooth®* Low Energy Wireless Technology on computers with only USB-C ports

# Logitech Options

A free, powerful, easy-to-use, and simple to deploy, application that enhances Logitech mice and keyboards, allowing users to get more out of their devices.

## COMPLETE DEVICE CUSTOMIZATION

Reassign buttons and keys to perform virtually any task. Adjust scroll wheel speed, cursor speed, and much more.

## APPLICATION SPECIFIC PROFILES

Ready-made profiles for productivity and creativity apps, users can become more productive. User can also manually customize buttons & keys to any application.

## LOGITECH FLOW

Using two or three computers at the same time is no problem with Logitech Flow. Automatically switch between computers just by moving the cursor to the edge of the screen. Effortlessly copy & paste text, images and files between your computers.

## DEVICE STATUS & NOTIFICATIONS

Get device-specific information such as battery level, key backlighting level, and Caps Lock at the right moment. Know when your battery life is about to run out and when it's time to recharge so you're never caught off guard.

## SIMPLE DEPLOYMENT

Ready for mass deployment and rules management. Lock certain features to specific groups or the entire company with tools you already use on Windows, Mac, Windows or mixed OS environments.

## EASY TO UPDATE

Easily deploy new devices updates (DFU) throughout the organization with easy to use command-line commands, and ensure devices are always update to date and secure.

## Compatibility
