DESIGNED FOR EVERYTHING APPLE

Discover award-winning solutions
for Mac®, iPhone®, and iPad®

LOGITECH AND APPLE

Logitech creates high-quality accessories that complement and enhance iMac®, MacBook®, iPhone, & iPad, elevating every Apple® experience with more functionality, more customization, and more comfort.

LOGITECH DESIGNED, APPLE APPROVED

For over a decade, Logitech has designed tools that provide the very best user experience across all Apple platforms, tested and approved by Apple.
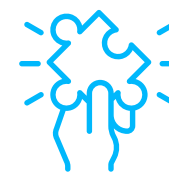

AWARD-WINNING TECHNOLOGY

Logitech has won over 250 design awards from major design organizations and publications around the world, creating products that complement the aesthetic minimalism of Apple devices.

SOLUTIONS FOR EVERY APPLE USER

Logitech accessories for Apple devices are ideal for different user types from high-end content creators and designers who need tools to increase their in-app productivity to those who want stylish, functional solutions for working in the office, at home, or on the move.

BEYOND COMPATIBILITY

Logitech creates accessories with unique features that work seamlessly with Apple products, providing the exceptional experience users expect.

ELEVATING USER EXPERIENCES

Logitech products designed for Mac, iPhone, and iPad increase the functionality of the devices they are connected to, providing customization, enhanced compatibility, multi-connect, and multitasking capabilities that drive user productivity.

DESIGNED FOR MAC

Logitech products designed for and compatible with iMac, MacBook, and MacBook Pro

MADE FOR MAC

Logitech has been a leader in mouse and keyboard innovation for 20+ years. The MX series for Mac fits seamlessly into macOS® ecosystems and creative workflows.

These devices help users get more out of their Mac, including fast, accurate, and comfortable typing, effortless precision scrolling, gesture support, and seamless switching between devices. **MX Keys** and **K380** for Mac feature Mac-specific shortcut keys, while **MX Master 3** and **MX anywhere 3** for Mac feature magwheel scrolling for precision and performance.

MAC-COMPATIBLE PRODUCTS

Creativity and productivity are enhanced with Logitech's Mac-compatible products, including the **Logitech Streamcam**, **Spotlight Wireless Presentation Remote**, and **Blue family** of USB microphones.

These Apple-friendly accessories help designers, streamers, trainers, and podcasters create and share while providing business professionals with high-quality audio and visual technology for virtual meetings.

DESIGNED FOR iPAD

Logitech products that boost iPad productivity and performance

MADE FOR iPAD

Logitech products designed for iPad provide protection, power, and performance while complementing the elegant Apple aesthetic.

Logitech keyboard cases with trackpads, like **Folio Touch** and **Combo Touch** have been meticulously designed to offer the highest level of precision and support for Multi-Touch® gestures, while **Pebble i345 mouse** brings on-the-go mouse control to the iPad experience.

Logitech is the only 3rd party **iPad keyboard case** manufacturer that features Smart Connector Technology in its keyboard cases. It enables instant connection between iPad and keyboard with no set up required, plus a stable connection that doesn't rely on *Bluetooth*® and eliminates the need to charge or replace batteries because power is sourced directly from iPad.

iPAD-FRIENDLY DEVICES

Many of Logitech's keyboards and mice designed for Mac are perfect partners for iPad too.

From ergonomic options like the **K860 keyboard** and **MX Vertical mouse** to portable tools like the **i345 Pebble** and **Keys-To-Go**, users of Mac and iPad can use the same convenient accessories across all their Apple devices.

DO MORE WITH LOGITECH CRAYON

Logitech Crayon is a versatile, pixel-precise digital pencil for all iPads (2018 models and later) that enables you to easily mark up PDFs, take handwritten notes, sketch ideas, and collaborate in digital whiteboarding sessions on iPad.

Compatible with hundreds of iPad apps and featuring up to 7.5 hr battery life, you can use it throughout the work day and take it with you on the go without worrying about charging.

DESIGNED FOR iPHONE

Logitech products that work perfectly with iPhone

iPHONE-FRIENDLY SOLUTIONS

Many of Logitech's keyboards and mice designed for Mac are perfect partners for iPhone too.

From multitasking keyboards like the **MX Keys** and **K380** to work anywhere tools like **MX Anywhere 3** and **Keys-To-Go**, users of Mac and iPhone can enjoy the same convenient accessories across all their Apple devices for when they need to take their productivity on the road.

The **K780**'s integrated rubber cradle can hold multiple devices enabling easy switching between them for efficient multi-tasking. For those on-the-go, the **K380** is ideal with its slim, lightweight design and ability to switch between laptops, phone or tablet.

ENHANCE THE APPLE EXPERIENCE WITH LOGITECH

Get more from Apple devices with Logitech technology designed for and compatible with Mac, iPad, and iPhone.
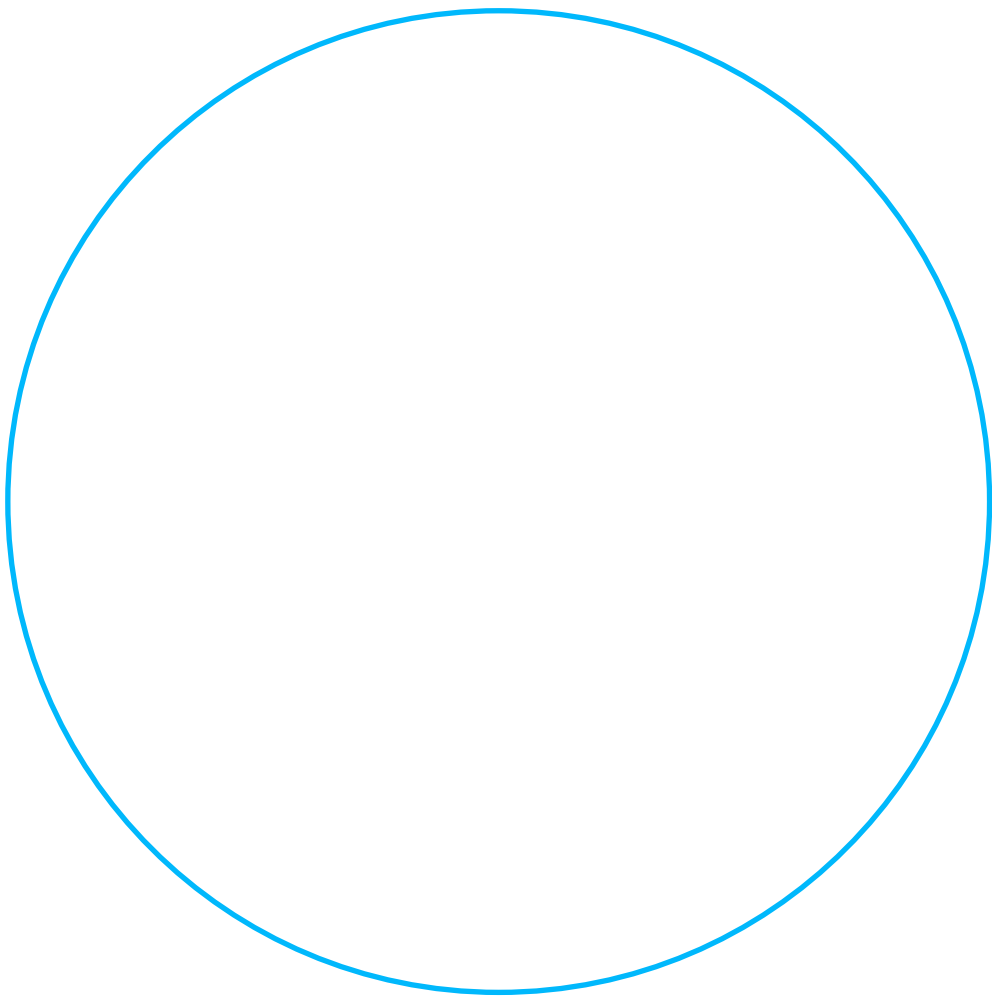

TAKE APPLE DEVICES TO THE NEXT LEVEL

No matter what Apple device you're using, whether it's an iMac, Macbook, iPad, or iPhone, Logitech has a suite of solutions designed for the very best experience. From performance tools to keyboard cases and a digital pencil that get more from iPad, Logitech helps users elevate their Apple experience.

MAC COMPATIBLE AND MADE FOR APPLE SOLUTIONS

Logitech develops Apple-compatible products as well as accessories specifically designed for Apple operating systems.

ENABLE USERS TO MULTITASK BETWEEN ALL THEIR APPLE DEVICES

Easy-Switch technology for Logitech mice and keyboards enables users to use the same peripheral across all of their devices and switch between them seamlessly.

ACCESSORIES DESIGNED TO FIT YOUR STYLE AND WORKSPACE

Logitech accessories for Apple complement the unique, elegant style of Apple products, providing features and additional functionality while blending seamlessly with existing workspaces.

SOFTWARE-ENHANCED HARDWARE SOLUTIONS

Logitech software like Logitech Capture and Logitech Options opens a whole new world of creativity and customization for Apple users, helping them personalize their workflows, elevating the functionality of their devices.

COMPLETE DESKTOP SOLUTIONS FOR APPLE
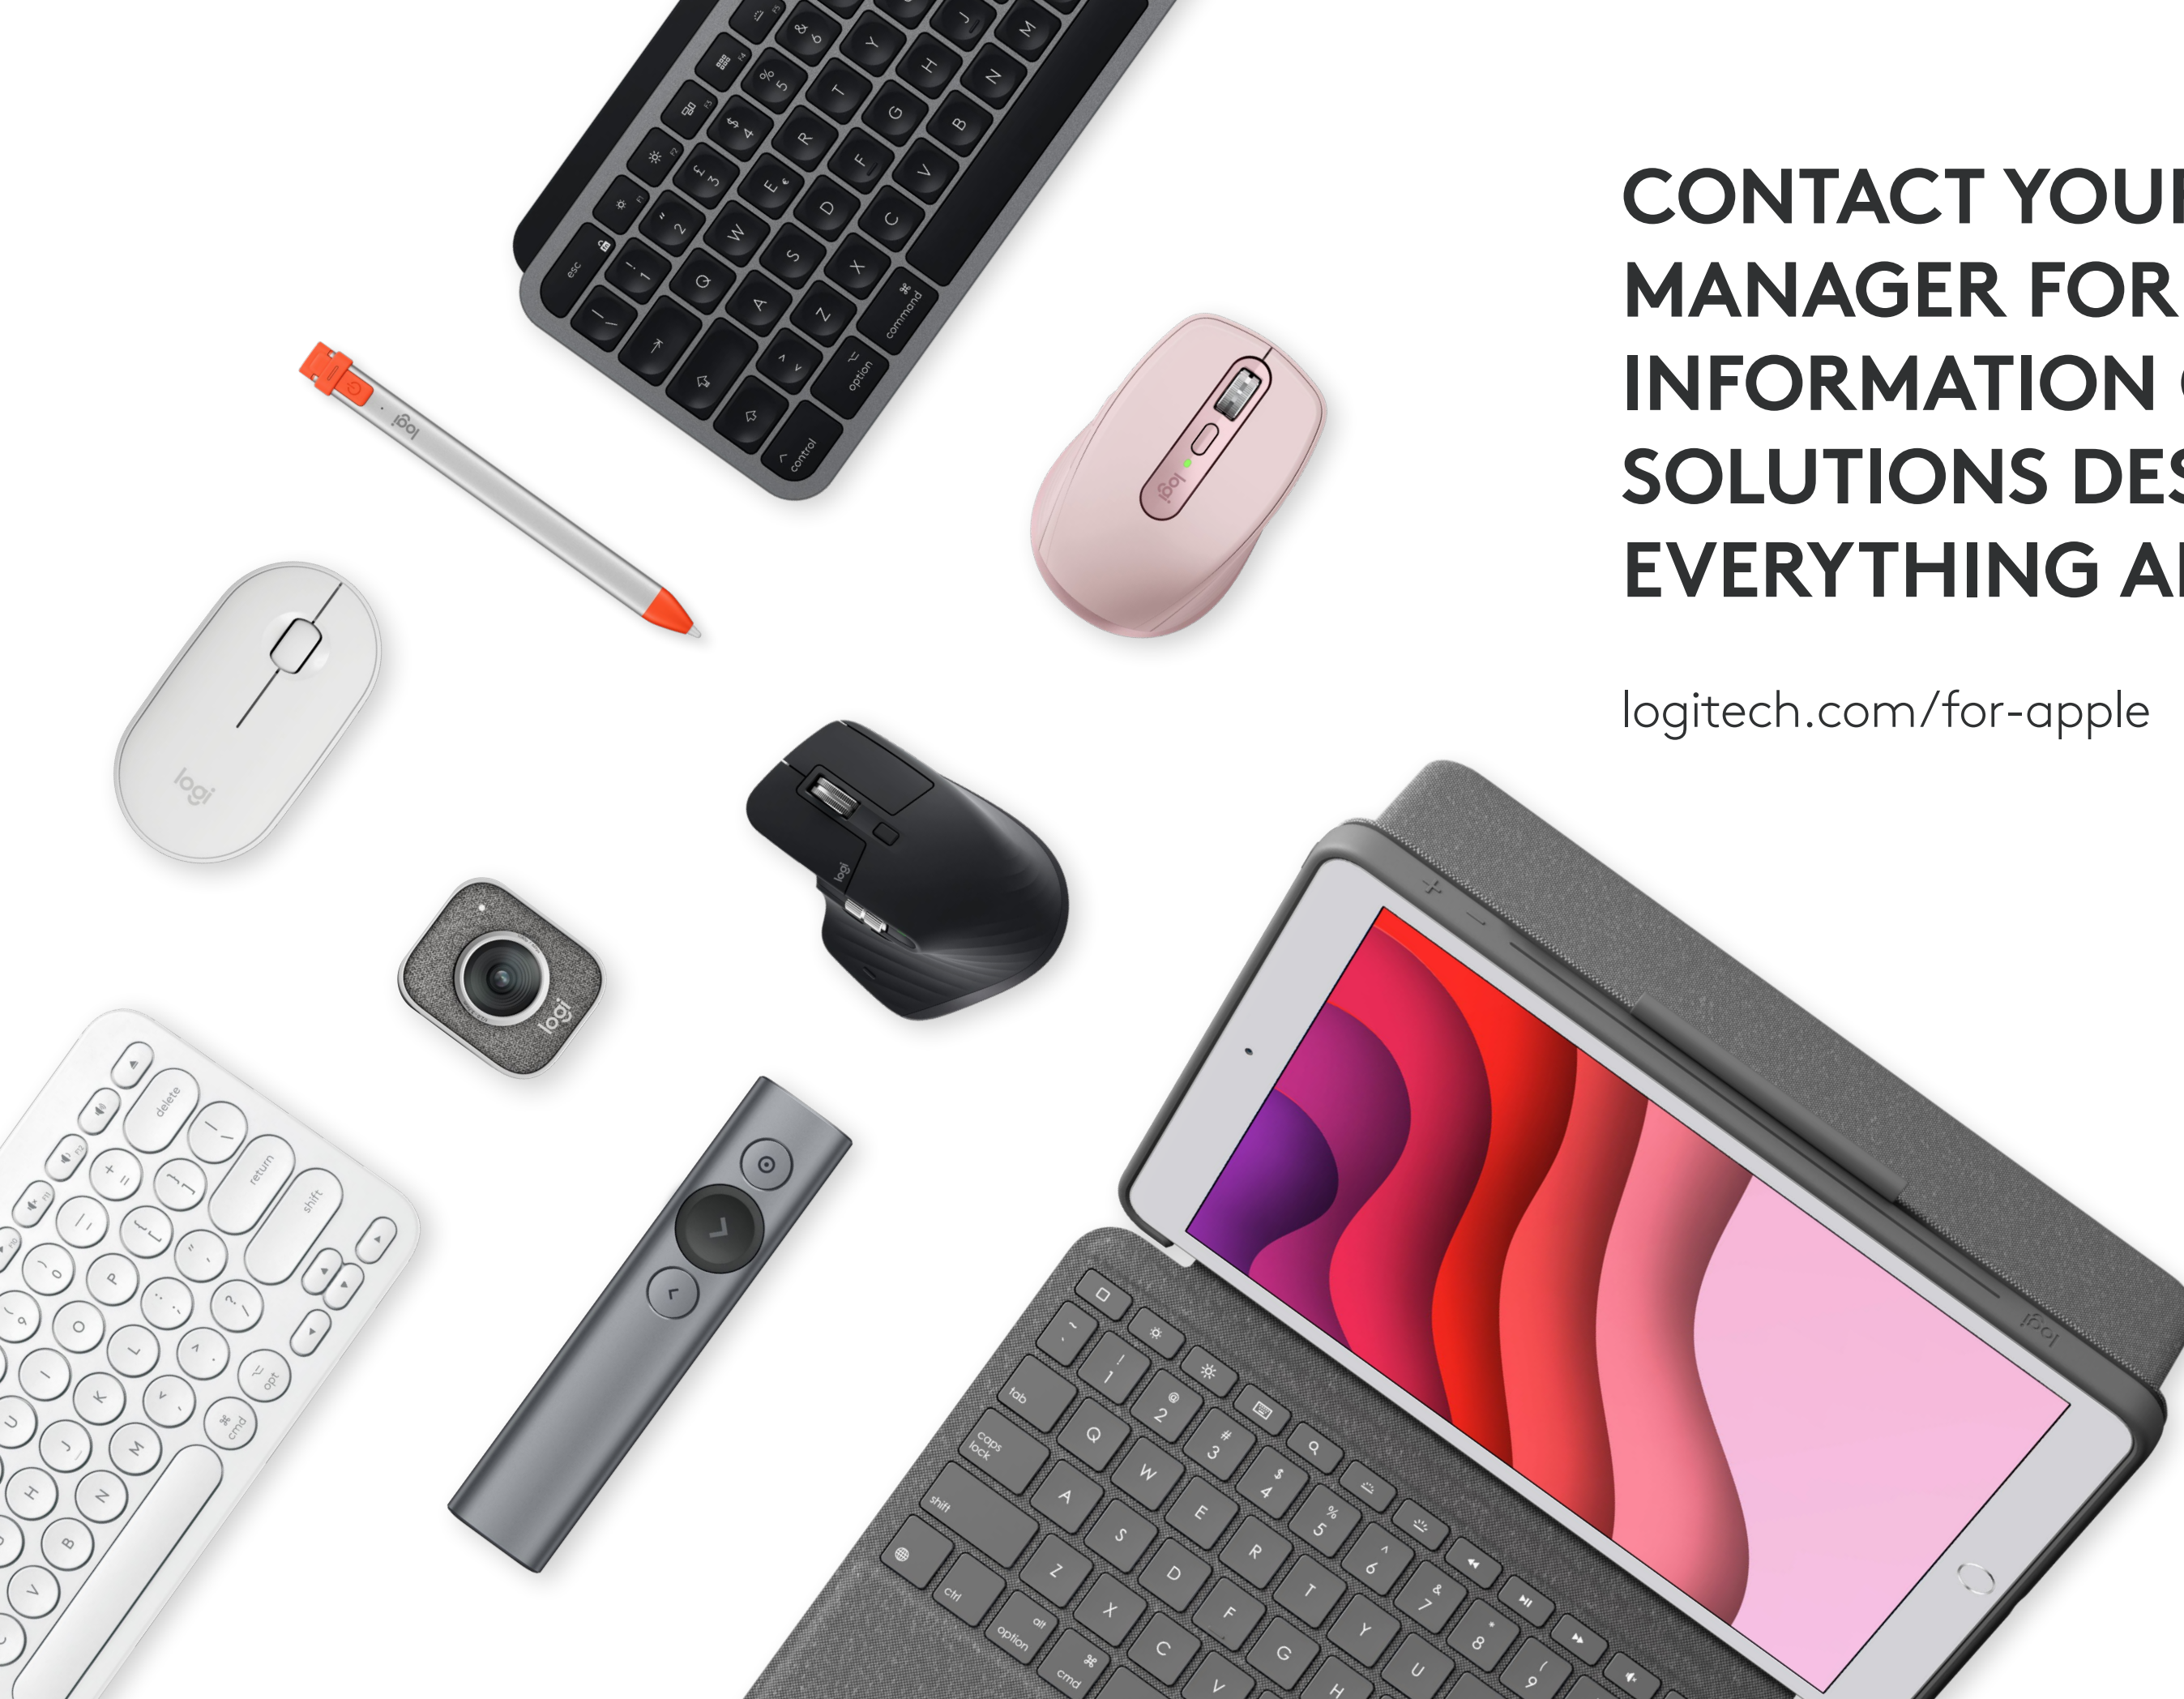

Combining Logitech solutions with Apple products helps improve user productivity and speeds up creative workflows with solutions for Mac purists at work and at home.

UNIFYING TECHNOLOGY

Many Apple-compatible products from Logitech feature the Unifying Receiver, which enables multiple solutions to be connected to a single Mac via one USB port.
