

Mago Pro

Engaging collaboration.

Multi vendor meetings.

Start or join meetings of 15+ video conferencing systems with a single tap.

Beyond a whiteboard.

Present, annotate, share files and 3D objects on the Mago Workspace canvas.

Easy screen sharing.

A hassle-free experience. Connect instantly, without third-party tools.

Your favorite apps.

Launch and interact with the Windows and Web apps you already use.

QR code connection.

Connect wirelessly and control the room remotely, via mobile or tablet.

Cloud managed.

Monitor and manage Mago remotely from the web console, in real time.

Discover more or ask for a demo at www.mago.io

Your new favorite room collaboration platform.

Unlock rooms from a single video conferencing provider and join calls across different platforms. Share your screen from any device, present your documents and seamlessly collaborate on Mago Workspace: the next-gen room whiteboard.

For interactive All-in-One displays

Present, annotate, share files, documents and 3D objects while in a video call with your team or with customers.

For passive displays

Join video calls from Microsoft or Google calendars and control the meeting via a wired or wireless controller¹.

Download and try the free Mago Workspace mobile app

- ✓ Connect and control the room remotely
- ✓ Launch your personal meetings
- ✓ Share files securely from your Cloud drives
- ✓ Scan and import paper documents
- ✓ Capture and collaborate on 3D objects
