

Meet the new Surface Laptop Go for Business

The everyday,
everywhere laptop

The way we work has changed

Remote and hybrid work bring benefits, but also challenges

Increasingly complex IT environments due to number of new devices connecting to the corporate network

Need to provision and deploy devices remotely without sacrificing security

Pressure to scale, bring services to market faster, and reduce costs

Teams need flexible, productive, and secure work from home options

Growing cyberthreats require more advanced security across devices, users, apps, and their data

Essential everyday experiences

Connect, collaborate, and do your best work with an essential everyday laptop.

Run professional-grade software and your essential apps with a 10th Gen Intel® Core™ Processor.

Power through your day wherever you work, with all-day battery life up to 13 hours¹ and Fast Charging².

Get back to work quickly with Fingerprint Power Button for biometric sign-in, plus fast, secure access to your files and data.

Hear, be heard, and be seen in virtual meetings with radiant Omnisonic speakers, dual far-field Studio Mics, and a front-facing 720p HD camera.

Industry-leading typing comfort with a full-size keyboard and precise trackpad for easier navigation.

Surface for Business unlocks more value

Give IT peace of mind knowing that company and customer data is safe and secure. Save time and money with streamlined deployment, modern device management, and built-in, cloud-powered security.

Maintain control of your sensitive information with hardened firmware adopted from a Microsoft open-source UEFI,¹ and security that extends from the operating system to the cloud.

Simplified security thanks to Fingerprint Power Button² with Windows Hello and One Touch sign-in, plus fast, secured access to your files and data.

Make the most of your investment in Microsoft 365,* the Windows 10 Pro you know and trust, the protection of Microsoft Enterprise Mobility + Security, and Office 365* productivity apps you rely on.

More control with cloud-first device deployment and management. Deploy and manage down to the firmware layer through the cloud with Microsoft Endpoint Manager* and DFCL.¹ Surface Laptop Go ships with Windows Autopilot, reducing IT complexity by deploying straight to your employees.

Includes Advanced Exchange, an expedited replacement service, at no additional cost.³

Who Surface Laptop Go was made for

Modern and Mobile Information Workers

You're part of a tech-savvy workforce that puts a premium on UX, frictionless mobility, and security that does its job in the background, not the foreground. You may be in charge of managing changing computing demands at scale while balancing a tight budget. You're a hero when you can deliver sleek, compact, and affordable devices that measure up to your users' professionalism and tech-forward standards.

Customer Engagement Professionals

Sales reps, independents, executives on-the-go: The first thing you need in a laptop is compact portability. The last thing you need is tech that slows you down. Customers are frequently looking over your shoulder, and you want what they see to be a statement of elegance and professionalism. So features like Instant On and all-day battery life are more than productivity pluses. They're part of the impression you make.

Secondary Education (Grade 6-12)

Keep student data safe and reduce headaches for IT with zero-touch remote deployment, one-click device management, and protection from Microsoft. Upgrading your classroom technology doesn't have to bust the budget. You believe students need modern and sophisticated tools to make the most of their 6th through 12th grade educations that are easy to repair and durable enough to handle even the toughest critics.

Higher Education

Unlock new ways of learning and collaborating by equipping students with a laptop that's powerful enough to handle their essential apps, portable enough to carry everywhere, and stylish enough to excite young minds. Great devices shouldn't come at a crippling price – now students can spark creativity and improve readiness for college and career while appreciating the durability and modern design.
