

# Meet Microsoft Surface Management Portal

A centralized solution for IT admins to self-serve, manage, and monitor Surface devices at scale in Microsoft Endpoint Manager.

## One location to manage your Surface devices.

### View status of your Surface devices.

Get insight into each Surface device to be aware of low storage, compliance issues, inactivity, encryption needs, and immediate actions required.

### Manage your warranty data.

Plan for device refresh and support proactively by accessing warranty data under the Microsoft Surface Management Portal.

### Streamline your support.

Track all updates seamlessly by viewing your Surface support needs in one location.

## An elevated Surface experience.

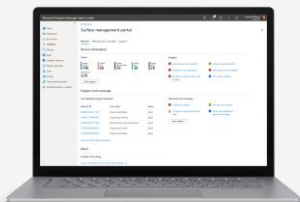

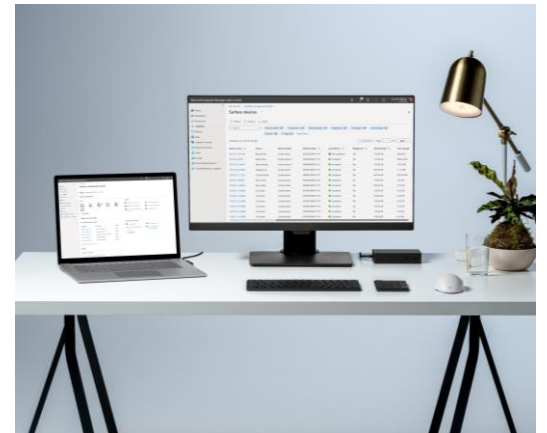

**Help reduce IT costs** with insights into the health and status of your Surface devices.

**Self-service efficiently** with an easier way to manage warranties and support requests for your Surface devices.

**Experience a streamlined management solution** with reduced manual work in Microsoft Endpoint Manager.

**Support multiple form factors** by streamlining management of your Surface devices through Intune and hybrid managed devices.

**Receive regular updates** to Microsoft Surface Management Portal.

All Intune customers in the US can access **Microsoft Surface Management Portal**. Coming soon to additional markets where Surface is sold.
