

The New IT Sees Business Differently

Proactively solving for the world's biggest tech challenges.

The New IT intuitively responds to the universal realities of doing business. And equips you with solutions that keep you a step ahead in achieving these desired outcomes:

- **Workforce Productivity & Collaboration:** Maximize uptime in the new hybrid workforce reality.
- **Infrastructure Flexibility & Agility:** Transforming enterprise computing to optimize business outcomes.
- **Sustainability Improvements:** Cleaner, leaner operations with a smaller carbon footprint.
- **Industry-specific Outcomes:** Customized solutions for specific vertical markets.

Our easy-to-implement solutions—backed by world-class support—maximize your time and resources.

Smarter Solutions Revolutionize Business

Solutions with productivity in mind

From the pocket to the cloud, Lenovo equips your organization to do more, with less. How? By providing ready-to-use solutions that meet today's needs and position you for tomorrow's growth.

 Remote Work Enablement	 Hybrid Cloud Enablement
 Complete Conference Room	 Asset Recovery Services
 VDI Hosted Desktop	 Immersive Education
 Backup and Recovery	 Immersive Design and Engineering

 **Get ready for the Next Wave of Work from Anywhere**
Remote Work Enablement

Equip and empower work anywhere with innovative remote work enablement solutions from Lenovo with managed deployment and configuration, plus pay-as-you grow scalability.

 **Solve Your Biggest Meeting Headaches**
Complete Conference Room

Trade your jumble of unreliable meeting technology for a cutting-edge conference room that's ready to use with just one click.

 **Scale and Simplify**
VDI Hosted Desktop

Empower your employees with flexible cloud-like virtual desktops and secure on-premises data center infrastructure.

 **Because Nobody is Up for Downtime**
Backup and Recovery

Enterprise-grade Backup and Recovery solution that leverages the best mix of leading servers and software to provide intelligent, cost-effective protection.

 **Cloud Power. Customized to You.**
Hybrid Cloud Enablement

Enjoy an end-to-end, scalable hybrid cloud solution that energizes growth and simplifies day-to-day management with more agility, security, and confidence with Lenovo Hybrid Cloud Infrastructure Enablement.

 **Powerful Hardware Updates. For You and the planet**
Lenovo Asset Recovery Services

For your next hardware refresh, go green in one easy move with Lenovo Asset Recovery Services: includes secure hardware and data disposition, responsible recycling, resale processing, and regulatory compliance.

 **Faster, More Comprehensive Learning**
Immersive Education

Lenovo's Immersive Education empowers K-12 and Higher Education to give students more emotional connection and retention with the power of VR.

 **From Research to Reality**
Immersive Design & Engineering

Lenovo's end-to-end, immersive solution takes collaboration beyond the walls of a training facility—enabling realistic 3D environments for designers and engineers to create lifelike virtual and mixed reality experiences.

Contact your Lenovo Business Partner for insights on your own digital transformation. And watch for new solutions to be announced over the coming months to address the world's biggest tech challenges.

Solution availability varies by location.
