

Simplify your remote device deployment

Ship a ready-to-go remote office

Connecting your employees and onboarding new hires in a remote setting are major challenges for any business. Lenovo's Remote Work Enablement solution delivers flexible, mobile capabilities to help you power a remote work model while saving time and avoiding IT speed bumps.

The Remote Work Enablement Solution brings workforce productivity and efficiency with all the hardware, software, and premium services your business needs to keep moving forward. We'll ship the essentials, ready to use with optional pre-configuration, direct to your employees at home or the office.

Remote workers get up and running faster with the latest modern devices like the ThinkPad® X1 Yoga with Intel vPro®, An Intel® Evo™ Design, for an exceptional thin and light business laptop experience. And they get all the seamless connectivity they need to stay that way. Your IT department also gets support with a full suite of comprehensive configuration services so they're free to focus on other efforts.

An Evo Design

Hardware

- **Lenovo Think PCs.** Best-in-class computing; Lenovo ThinkShield converged security solutions

Software

- **Advanced Endpoint Protection.** Autonomous endpoint protection that prevents, detects, and responds to attacks
- **Ready-to-provision operating system and essential drivers.** Deployment management for a fraction of manual imaging cost and effort
- **Lenovo Cloud Deploy.** Custom preloads, imaging, or application deployment from anywhere
- **Microsoft Windows Autopilot.** Set up and pre-configure new devices, readying them for productive use

Services

- Custom Fulfillment Services ship solutions directly to end users with overpack and tied shipments
- Complete configuration — imaging, optimization, drop in the box, BIOS settings, and more
- Accidental Damage Protection for accidents beyond the system warranty
- Lenovo Sealed Battery Warranty coverage up to three years
- Hardware and software security assurance from factory to end user
- Lenovo CO₂ Offset Services
- Lenovo Premier Support

Lenovo

Built to drive today's hybrid workforce

The Lenovo Remote Work Enablement solution powers your remote and hybrid teams with smart, efficient, innovative ways to collaborate and get things done. Easy to deploy and manage, these tools scale with your business. The result: enhanced innovative IT solutions, reduced costs and administration, and improved productivity and performance.

- Easy setup can include modern devices like the ThinkPad® X1 Carbon with Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want — plus external display, accessories, software, and instructions
- Standardizes employee experience and speeds new employee onboarding
- Consistent integration enables increased flexibility for remote and office-based workers
- Reduces downtime, technical issues, and IT administration by enabling end user deployment on day one
- Enables users to troubleshoot with custom drop-in-the-box services, employee communications, custom documentation, deployment instructions, and support information
- Lowers employee turnover by powering remote and hybrid productivity, improving job satisfaction and results
- Provides users with device security that leverages AI to mitigate risks and vulnerabilities
- Speeds onboarding of new hires and delivers quick integration with the entire team, even in a remote setting

80% of IT leaders expect significant hybrid work challenges.
