

## WHY IS MANAGEABILITY IMPORTANT?

- Helps reduce overall PC maintenance and administrative costs
- Enables IT managers to support a remote workforce
- Simplifies remote device management
- Enables more efficient patch management and quick patching of security vulnerabilities
- Modern PC Manageability solutions help keep your IT ecosystem secure

## AMD PRO MANAGEABILITY

A full manageability feature set compatible with your current infrastructure that enables seamless deployment and simplified management at scale

### DEPLOYMENT

### MANAGEMENT

### ENABLING MODERN IT

- ✓ Available on all PRO processors from AMD
- ✓ Remote management in a multi-vendor, distributed environment
- ✓ Built on open industry standards
- ✓ Full support for modern end-point tools, such as Microsoft Endpoint Manager and Microsoft Intune

Out of Box Deployment

Seamlessly update from cloud in minutes across a multi-vendor, distributed environment

Over the air, across most any network, in-band and out-of-band management solutions

Cloud-based, scalable, and reliable app distribution

Remote wipe and reset, repurpose, and redeploy devices to new users
