

# Everything You Need to Manage XR at Your School

Remotely manage AR & VR devices, install content, and control what students can see & do in the headset.

## VR & AR Device Management Built for Education

### Manage AR & VR Devices

Effortlessly manage AR & VR devices with full control, and scale XR deployments as large as you want.

### Install & Deploy Content

Install & deploy AR/VR content with incredible flexibility, always keep it up-to-date, and monitor usage remotely.

### Headset Experience

Lock down devices from web browsers and app stores, and guide students with a customized experience.

## XR is Transforming Education

AR/VR is changing how we learn. According to a study by the [PwC](#), VR learners are:

**275%** 

more confident applying skills learned

**4x** 

faster to learn than in traditional methods

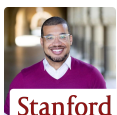

**3.75x** 

more emotionally connected to content

**4x** 

more focused than e-learning peers

"We're using ArborXR to track headsets and manage XR content remotely. ArborXR makes it possible for our team to work collaboratively on XR projects!"

**Erik Brown**, Associate Creative Director  
Stanford Digital Education

"We couldn't have made our project work without ArborXR. ArborXR gave us a quick & easy way to deploy updates and create a robust kiosk VR experience."

**Joshua Higgason**  
Interactive Design at MIT

# Using XR in Education

When using XR in classrooms, it's essential to lock down the headset and know what students are working on. ArborXR provides **ArborXR Home** and **kiosk mode** to keep students out of app stores, web browsers, and control what they can see and do in VR. To take control even further, ArborXR's remote features enable educators to **launch apps to multiple headsets** at once and **see what students are viewing in real time**, ensuring students stay engaged and on track.

**We created ArborXR to make XR experiences in education seamless.**

Trusted by <b>550+</b> educational institutes	And by <b>3,000+</b> companies worldwide	With customers in <b>90+</b> countries

## ✔ Easy to Use

ArborXR's platform is easy to use for teachers and admins to manage XR headsets and install content remotely. Once ArborXR is installed, everything else can be controlled from the web portal.

## ✔ Control Students' Access

Fully lock down the device and guide users with a customized headset experience. Take back control with the ArborXR Home launcher and single-app Kiosk Mode.

## ✔ Access to 3rd Party Content

Where do you plan to get XR content? XR app stores are not the most efficient way to get XR apps for classrooms. ArborXR allows app developers to share content directly with schools and universities through our platform.

## ✔ Pricing for Education

Starting out a new XR pilot program? Need help managing XR headsets across classrooms, campuses, and school districts? We provide education discounts for any school to make XR as frictionless as possible.

## Try ArborXR for Free

Don't just take our word for it. Start using ArborXR free today.
